SAIGON, SOUTH VIET NAM—U.S. Ambassador to South Viet Nam Henry Cabot Lodge (R), strides through the rubble in front of the bombed Victoria Hotel after it was shattered with dynamite today in Saigon's worst act of Viet Cong terrorism in 1966. Lodge said, "This is typical Communist violence of the

criminal kind." Seventy-two U.S. officers were injured and four Vietnamese were killed in the bombing of the hotel which served as a U.S. officer's billet. Three American MPs were machinegunned to death by the terrorists. (UPI)

No Serious Effects On Vital Mail

Disruption of train services in some parts of the U.S. are not delaying preferential mail either coming into or going out of Sedalia. Postmaster Maurice Hogan told The Democrat-Capital Friday.

Hogan said first class mail, parcel post items and other matter is being handled on schedule through the employment of emergency vehicle contracts.

He said normal truck routes handled by the postal department have been facilitated by emergency truck routes which are handling delivery of mail on schedule.

The only items likely to be delayed, Hogan said, might be second class matter, such as newspapers, magazines and so on. But even in these cases, delivery is made as best as possible.

The train stranded in Sedalia yesterday, he said, carried a load of mail destined for Pittsburgh, Penn., and will be moved out of Sedalia this afternoon by trucks.

Hogan added that metropolitan areas such as Kansas City and St. Louis had emergency air lift mail operations in effect. No serious delays on preferential items are anticipated, Hogan said.

MoPac Puts Embargo On Some Shipments

ST. LOUIS (AP) — The Missouri Pacific Railroad placed an embargo today on the shipment of perishables, livestock and packing house products because of the strike by the Brotherhood of Locomotive Firemen and Enginemen.

The railroad said it was the first of the eight lines affected by the strike to embargo goods. A spokesman said the railroad would continue to accept other freight where possible.

Cong Hits Billet

SAIGON, South Viet Nam (AP) — Viet Cong terrorists shattered a U.S. officers' billet today in a predawn attack with machine guns, grenades and a truckload of explosives, killing three Americans and at least three Vietnamese and wounding 143.

The Americans died in gun battles with the small band of raiders during and after the attack on the 10-story Victoria Hotel. The injured included 113 Americans, at least 18 hurt seriously.

The powerful blast also wounded a number of Vietnamese women and children in nearby homes. It was one of the most devastating terrorist attacks of the war.

Vietnamese police said two men speeding from the scene on a motorbike were arrested after their vehicle overturned. Police sources said one admitted taking part in the attack.

The explosion ripped the hotel's three lower floors apart, smashed windows throughout the building, shattered outside walls as high as the fifth floor, unloosed a torrent of water from a 12,000-gallon rooftop tank and left a huge crater out front. The water probably prevented a brief electrical fire from turning the building into an inferno.

Many of the Americans escaped injury by ducking into bathrooms or under their bunks when they heard the first firing outside the building shortly after 5 a.m.

One officer said there had been reports the Viet Cong had slipped 250 pounds of explosive into the city and intelligence units had been looking for it.

U.S. Ambassador Henry Cabot Lodge denounced the attack as "typical Communist violence of the criminal kind" as he inspected the wreckage and conferred with officials at the scene.

Authorities said repairs would be undertaken quickly. The building housed 200 officers. It is on Tran Hung Do Street, between downtown Saigon and the adjoining Chinese quarter of Cholon.

About half a mile away is the Metropole Hotel, a U.S. enlisted men's billet where a similar attack on Dec. 4 killed two Americans and wounded 67.

The terrorists followed the usual pattern of attacking first with small arms, then exploding a vehicle laden with explosives.

U.S. military authorities said a gray Citroen panel truck pulled up in front of the billet at 5:12 a.m., coming from the direction of downtown Saigon. Several men jumped out and opened fire on the American and the Vietnamese MP at the entrance.

Another terrorist was spotted planting an explosive device across the road. It was apparently a pellet-scattering Claymore mine, and it went off first.

The guards fired at the terrorist and knocked him down but he got up and ran off. He was apparently taken away in an accomplice's car. Then the major charge in the truck went off. The men who had parked the vehicle at the hotel entrance ran down the road toward Cholon.

A block away from the billet, they were spotted by a U.S. military jeep patrol, and a furious exchange of fire erupted. The

two Americans in the jeep — a lieutenant and his driver — were killed.

Guerrillas Captured In Battle

PHU HOA DONG, Viet Nam (AP) — Two teen-age Viet Cong guerrillas crouched low in their foxhole and peered from under camouflaged helmets toward the seeming wall of U.S. armored personnel carriers bearing down on them. The youths were certain they had been spotted.

Le Ngoc Minh, 16, and his comrade made their decision: stand and fight.

Minh raised his Russian-made rocket launcher and fired. Just an hour before, at dawn, the pair had left their squad's tunnel hideout in the jungle and headed to the village of Phu Hoa Dong on a routine propaganda mission.

Their sandals, cut from an old tire, silenced their footsteps. Their pockets were crammed with anti-U.S. leaflets.

Suddenly an armed runner showed up. "The Americans are coming," he said, and kept on going.

Minh and his companion knew what to do. As many times before, they headed for a familiar escape route to the Saigon River. They would cross and disappear in the jungle of the Iron Triangle.

The runner was right. More than 100 tanks and armored personnel carriers loaded with troops of the mechanized infantry of the 2nd Brigade, 25th Infantry Division, rumbled from their base near Cu Chi.

They were out to catch whatever they could in this area of vast tunnels and hidden trails from which the Viet Cong had operated for years.

The grinding line of personnel carriers advanced on the crouching Minh and his friend, just 250 yards short of the river. The vehicles swung in and out between lines of rubber trees. Then came the flash of Minh's rocket launcher.

Three of the rumbling vehicles churned to a halt and poured hundreds of 50-caliber tracer bullets into their hiding place.

Union Appeals Court Order Against Major Rail Strike

Effects of Walkout Show In Reduction of Service

WASHINGTON (AP) — The railroad fireman's union asked a federal appeals court today to stay a lower court injunction against their strike that has crippled eight major railroads.

A three-judge panel took the case under advisement after union attorney Joseph L. Rauh argued that U.S. Dist. Judge Alexander Holtzoff's back-to-work order issued Thursday "would bust the strike—and once you have broken a strike with a court order, the damage is irreparable. It usually means the end of the strike."

Effects of the Thursday walkout continued to show in high-way commuter jams, auto plant shutdowns and troubles in the movement of mail.

Rauh, on behalf of the AFL-CIO Brotherhood of Locomotive Firemen and Enginemen told the court headed by Judge David L. Bazelon that Holtzoff's order was illegal because it amounted to a finding of contempt without a trial.

And he argued that the brotherhood's strike is perfectly legal.

The strike has crippled service on the eight lines in 38 states from coast to coast and Secretary of Labor W. Willard Wirtz said he foresaw no immediate end to the stoppage. He appealed to the union on the basis of "a very great national interest" to end the strike.

Francis Shea, on behalf of the railroads, told the appeals court that "all that's involved here is a temporary restraint; the notion that it's a finding of contempt is nonsense."

There was no immediate indication of when the appeals court might rule on the case but quick action was expected.

The biggest immediate effects appeared in operations of the giant General Motors Corp. which shut down six plants in Michigan, idling 13,000 workers, for lack of incoming parts and shipping for finished cars.

About 46,000 more of the industry's workers, including 33,500 in GM plants in Detroit, Flint and Pontiac, Mich., were sent home early.

In Ohio and Texas, Ford and Chrysler workers went on short shifts.

And at Kansas City a GM official said another 8,200 in plants in that area would be affected if the strike continued.

Commuters were in trouble in various areas, and emergency measures were adopted for movement of mail at some points.

The order against the walkout was issued Thursday by U.S. Dist. Judge Alexander Holtzoff of the District of Columbia.

Wilson Back In Smashing Election Win

See Laborites In a Majority Of House Seats

LONDON (AP) — Prime Minister Harold Wilson returned triumphantly to No. 10 Downing Street today, swept back into office by a smashing election victory over Edward Heath and the Conservatives.

Computer analyses of returns from the general election Thursday predicted Wilson's Laborites would have a majority of at least 95 seats in the new House of Commons. Labor's majority in the last House was only three.

Looking fresh and vigorous despite less than four hours sleep, Wilson, 50, said he would give priority to measures to maintain the strength of the pound sterling as an international currency.

He indicated action to stabilize wages and prices and said, "We really mean business in keeping sterling strong."

The first reaction on the international exchanges to Labor's victory was a sharp improvement in the pound. The London stock market opened quietly, indicating that the result had been expected and caused little concern.

Wilson discounted suggestions from newsmen that his promise to nationalize the steel industry might frighten foreign holders of sterling.

Wilson also hinted at tougher action against the rebel regime of Rhodesian Prime Minister Ian Smith.

H-Bomb Recovery Work Continuing

PALOMARES BEACH, Spain (AP) — The H-bomb recovery task force continued its work today off this coast under a new shield of secrecy which halted all flow of information from the concentration of naval vessels.

commission Thursday night completed its task of apportioning the House districts according to the U. S. Supreme Court's one man-one vote decree.

There were few changes in the tentative plan filed last week.

The final vote, 18-2, came at 8 p. m. with St. Louis Republicans casting the dissenting votes. Only 14 of the 20 commissioners had to vote yes to adopt the plan.

Refusing to sign the formal resolution were Ted Fischer of the 1st Congressional District and John B. Prentiss of the 3rd. They also voted against the tentative plan after a dispute in re-mapping the city of St. Louis threatened to deadlock the commission.

Only one minor change was made in St. Louis. A boundary between the new 53rd and 54th districts was shifted southward two blocks. This put Democrat incumbent Rep. James Troupe Sr. in the 53rd. Otherwise, his residence would have been in the same district with Rep. Raymond Howard, also a Democrat.

The change did not significantly alter Howard's district. He had appealed to the commission to make his constituents predominantly poor or middle class. Mixing the two economic groups will make it difficult, Howard said, to represent the district.

In outstate Missouri, only a technical change was made in Jefferson County.

After the month-long work, Chairman G. Andy Runge, Mexico Republican, and Vice Chairman Robert S. Dorsey, Brookfield Democrat, loaded up their maps and legal description and headed for the Capitol to file the final plan with Secretary of State James C. Kirkpatrick.

Kirkpatrick kept his office open in anticipation of the formal filing and it came at 8:30 p. m.

Today, the first to file for one of the new districts was Michael T. Butkovich of Sugar Creek, a Democrat seeking the seat in Jackson County's 20th District. He was logged in at 8:01 a. m.

Edward F. Aylward of Kansas City, a Democrat filing for the 5th District, filed at 8:02 a. m.

Rep. Frank C. Mazzuca, a Democrat, was the first incumbent to file. He's running in the new 1st District in Kansas City. He filed at 8:03 a. m.

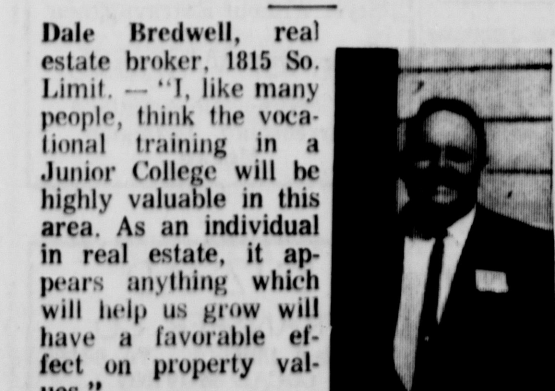

Personal Views On JuCo Proposal

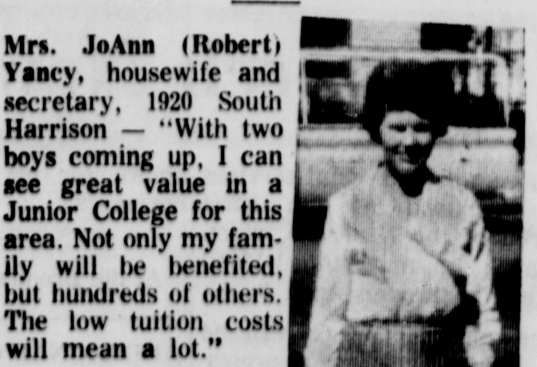

Morris L. Brown, super market manager, 2606 Anderson — "I like the academic, vocational, adult, cultural, and athletic advantages a Junior College will offer our community. It does not seem we will be assessed too much for such a wonderful addition to this area, so you can quote me as saying my wife and I are for it!"

Mrs. JoAnn (Robert) Yancy, housewife and secretary, 1920 South Harrison — "With two boys coming up, I can see great value in a Junior College for this area. Not only my family will be benefited, but hundreds of others. The low tuition costs will mean a lot."

Dale Bredwell, real estate broker, 1815 So. Limit. — "I, like many people, think the vocational training in a Junior College will be highly valuable in this area. As an individual in real estate, it appears anything which will help us grow will have a favorable effect on property values."

Mrs. JoAnn (Robert) Yancy, housewife and secretary, 1920 South Harrison — "With two boys coming up, I can see great value in a Junior College for this area. Not only my family will be benefited, but hundreds of others. The low tuition costs will mean a lot."

The Shape of the Cross

The Planted Cross Something Worth Dying For

BY RALPH W. LOEW, D.D.
Newspaper Enterprise Assn.

They dropped that Cross into a hole in the ground. It thudded with a jolt that sent added pain through the body of the Man hanging there. They planted the Cross.

When you look at that fact, you know that this Man had to have something worth living for, in order to have something worth dying for. He had to believe that it was worthwhile here for that Cross is planted in our kind of soil.

Real religion is always like that. It's no opiate. It's no blissful floating around on some ecstatic cloud. It deals with dirt, with ugliness, with guilt. It has to do with the unloveliness and ugliness, with all the humus of sin and shame in our own earthiness.

If you have something worth living for, you know that that Cross is in your own kind of soil. It's planted where you are. The shape of the Cross has the contour of healing for those who live in our kind of soil.

Daniel W. Waggoner

Daniel W. Waggoner, 16, son of Mr. and Mrs. Clyde E. Waggoner, 2206 East Broadway, was presented the "Duty to God Award" at a Sunday evening service at the Church of Jesus Christ of Latter Day Saints, Broadway and Park, of which Daniel is a member. He attends Smith-Cotton High School. The presentation was made by the branch president, Ronald L. Jones.

This award is presented by the church to the young men members who have been faithful in their religious duties as established by meeting qualified requirements. He must be active in the church program and attend at least 75 per cent of all meetings for a period of four years.

At this same meeting, Mike Ballard, district scout executive, presented the troop charter to the church as sponsors of Troop No. 150. Also in attendance was Robert Mills, scout executive of the Lake of the Ozark Council, Jefferson City.

that the services will begin at 8 p. m. each night. The chalk drawing will be given each night as part of the attendance contest.

Ann Landers

Answers
Your
Problems

Dear Ann Landers: I laughed when I read the letter from the girl who was mad because her friend wore false eyelashes, a hair-piece, contact lenses and falsies, and seemed to have great success with the men while she (who never misrepresented anything) did poorly by comparison. Then I remember something I had read when I was a law student at Columbia and I looked it up.

If "Miss Loose Parts" had lived in England during the 18th century she would have been in serious trouble. Here is a law that was passed by the British Parliament in 1770:

"All women, of whatever age, rank, profession or degree, whether virgins, maids or widows, that shall impose upon, seduce or betray into matrimony any of His Majesty's subjects, by scents, paints, cosmetics, washes, artificial teeth, false hair, iron stave hoops, high-heeled shoes, bolstered hips or padded bosoms shall incur the penalty of the law enforced against witchcraft and like misdemeanors, and, upon conviction, that marriage shall stand null and void." — THE OLD RESEARCHER.

Dear Researcher: It's interesting to learn that in 1770 a man could be seduced by high-heeled shoes. God save the king—and all other males who lived during those hazardous times.

Dear Ann Landers: My husband underwent exploratory surgery a few days ago. The surgeon discovered a tumor that was malignant. He said he removed it and my husband has a

good chance of making a complete recovery.

Will you tell me, please, why people keep inquiring, "Did the doctor find anything serious?" Almost everyone I know has put this question to me.

I feel it is nobody's business what the doctor found and I'm telling everyone, "No. It was nothing serious." If I said, "Yes, there was a malignancy," everyone would bury him right then and there.

Please print this letter and tell people not to ask such personal questions. Thank you. — EL PASO.

Dear El: Here's your letter but don't expect miracles. Following an exploratory operation it is natural for friends to ask questions.

Dear Ann Landers: I can tell it's been a long time since you were in college, dearie. When the student from Illinois wrote and said the professors favored the sexy girls, you accused the guy of being a sorehead. I go to school in Phoenix and the same thing happens here.

I got "A" papers all through the term but the prof gave me a "C" for the course. I ought to tell you that I am a male and the prof is a phony intellectual who gives me a pain in the sacroiliac. Is this your idea of fair? — THE HERETIC.

Dear H.: Who said life was fair? If the prof gives you a pain in the sacroiliac you probably give him a pain in the same area. You have a lot to learn that isn't in the books, Bub.

New Salve Helps Burn Patients

SAN ANTONIO, Tex. (AP) — Two years ago a 9-year-old boy with third-degree burns over 45 per cent of his body was rushed from England to Brooke Army Medical Center's burn ward here.

He was "moribund," the hospital term for near death. His burns, which had been suffered several days before, were grossly infected. He was in severe pain.

Doctors began applying to the boy's wounds a white creamy substance which looks and smells like the cold cream a woman puts on her face at night.

Within three days, the boy was bright-eyed, feeling better and even managing a smile.

"We got a Christmas card from him this year," Col. John A. Moncrief, head of the burn ward, said recently. "He's growing and feeling well."

Moncrief said the boy was one of the first patients to benefit from the white salve. In two years since, Brooke hospital reports it has been able to reduce its burn mortality rate by almost half by using the cream.

It's called sulfamylon creme, a new application of an older drug called manfand which the Germans used in World War II and in medical experiments on humans.

Development of the cream was possible only after recent discoveries on the nature of burns, which Moncrief said had been a largely neglected area of research.

A large burn throws the whole body into a severe strain, and death can come quickly by shock, or gradually through kidney or liver failure, infection, adrenal failure or pneumonia.

Infection is the greatest danger in burns, but ordinary means of treating infection do not work because circulation to the burned area is destroyed. Before the loss of circulation was discovered, burn patients had been treated with massive injections of antibiotics, with little effect.

Without use of the cream, Moncrief said, burns often have bacteria counts of 10 million to one billion per gram of tissue. The cream can cut the count to about 10,000 per gram.

The increases the odds for survival by halting the progressive cell injury, he said.

The cream has proved most effective in saving patients with third-degree burns on 31 to 50 per cent of their bodies.

The doctor says he believes the cream will become a valuable lifesaver in the event of a nuclear attack. In such a situation, he said, the cream could be widely used and is easy to apply.

No matter what the medication, Moncrief said, a thermal injury still must be covered with new skin before the patient can be considered safe.

Use of the cream has markedly decreased the need for permanent skin grafts, he said, but has no effect on scars typically

Final Remap Plan Okay By Panel

JEFFERSON CITY (AP) — Missouri's House Redistricting Commission approved 18 to 2 Thursday night its final map for the state's 163 new House districts.

The dissenting votes were cast by two St. Louis Republicans, Ted Fischer and John B. Prentiss.

Few changes were made in the tentative plan filed last week.

In St. Louis, a line in the downtown area was shifted a few blocks.

This will enable Rep. James Troupe, a Democrat, to run in his former district. The original plan had Troupe's residence in another district.

Also altered was the district of Rep. Raymond Howard, a Democrat, who complained that poor and middle class families were combined in the new area.

Howard and Troupe would have been in the same district. The final vote was at 8 p. m.

Chairman G. Andy Runge, Mexico Republican and Vice Chairman Robert S. Dorsey, Brookfield Democrat, filed the plan with Secy. of State James C. Kirkpatrick at 8:30 p. m.

It is up to the courts to determine if the plan meets the one-man, one-vote principle decreed by the U. S. Supreme Court.

Kirkpatrick, who kept his office open late to receive the final plan, said House delegates could start filing Friday at 8 a. m.

The deadline for filing is April 26.

The commission held three days of public hearings, mostly pleas from disgruntled House members who wanted to keep their districts intact.

The commission was established on Feb. 28 after the people approved on Jan. 14 a constitutional amendment setting up the system.

The problem first arose in December of 1964 when a special three-judge federal court held that both houses of the Missouri Legislature and Mis-

Car Master Key Sales Legislation Planned

WASHINGTON (AP) — Sen. Abraham A. Ribicoff, D-Conn., proposed today legislation to

regulate the sale of automobile master keys.

He said would-be car thieves now can buy master-key sets for less than \$30.

Ribicoff said the keys — which fit any car — are used by juvenile joyriders and professional automobile thieves.

Sens. Robert F. Kennedy, D-N.Y., and Jacob K. Javits, R-N.Y., joined Ribicoff in sponsoring the bill which would bar the advertisement or sale of master keys "except to those with a legitimate need for them."

A similar commission rearranged the Senate seats in the fall of 1965.

Any change will be an improvement.

All we do when we change the Volkswagen is to make it work even better. We don't play with the way it looks. So the 1966 VW still looks the same. And there you have the whole Volkswagen point of view. We keep looking for ways to improve our one basic model. And then we knock our brains out to make the new pieces fit old VWs, too. All the improvements make a fat book. And every one has made the car a touch better than it was before.

This year, the backs of the front seats can be locked so they won't push forward. Engine power's increased for the 4th time. And the windshield has a 3rd defroster (so you'll see where you're going in such a hurry). This system not only makes the VW better all the time, but also makes parts easier to get, mechanics more skillful and owners always in style. And we can still keep the price at a nice, reasonable \$xxxx.xx. Keep the change.

Protestant Denominations Moving Toward Mergers

By GEORGE W. CORNELL
AP Religion Writer

Like little streams which flow together before converging into a river, several Protestant denominations are moving toward mergers, even as possible fuller union appears ahead.

For some of them, both prospects are developing simultaneously.

For others, they're planning to join their own tributaries of Christianity, but don't aim at present to enter into the wider ecumenical waters.

Either way, it makes for some lively cross-flow, with no little cloudiness at times about just what denominational current is going where or how far, in relation to whom.

Nevertheless, the tides roll on toward confluences — the latest in a modern succession of church mergers, a process recently somewhat overshadowed by broader overtures among Roman Catholicism, Protestantism and Eastern Orthodox.

Already, a blueprint is ready for uniting the Methodist Church, of 10.3 million members, with the Evangelical United Brethren Church, of 750,000 members. The plan is up for action at special conventions this year.

"This step is the immediate one for Methodism in the ecumenical movement and if we can't take this one we are ecumenically dead," says Charles Parlin, a New York lawyer and prominent Methodist layman.

Open Bible Sign Saves One Life

By DAN WHITTLE
The Daily Sikeston Standard

SIKESTON, Mo. (AP) — An open Bible sign overlooking the busiest downtown intersection in Sikeston is credited with saving one life and of influencing the lives of others.

It was erected for a devout merchant, who mixes a quiet, evangelistic zeal with his efforts to sell furniture.

He is O.C. Lewis, 58, a Church of God layman, who neither smokes nor drinks and in whose home daily devotions are conducted.

Lewis says he received a letter from a Chicago man relating how he had thought of committing suicide but changed his mind after seeing the sign while motoring through Sikeston.

The sign, 20 feet wide and 12 feet high, carries scriptural quotations and other religious messages. It faces the intersection of Malone Ave., city route of east-west U. S. 60 and Kings highway, business route of north-south U. S. 61.

Removable letters beneath the open Bible permit changes of the messages. The sign cost the merchant \$1,400 to build and the annual income he could get from a commercial sign in a prime location.

A Texas mayor gave Lewis the idea.

"After becoming a Christian," Lewis recalled, "he said that he thought he would put up a bulletin board telling of his experience.

"Five or six years after that people got after me to put advertising for cigarettes and liquor on top of the store since it was an ideal location, where both pedestrians and motorists do a lot of traveling.

"Rather than put up an advertisement, I thought that since it was located right on the corner and could be seen well by the people, I would just put up a sign of the Bible up with scriptures and sayings beneath to help bring out thoughts."

It was erected in 1947.

Lewis joined the church in 1931 and helped to establish the Tanner Street Church of God here. He served as lay pastor and has taught a Sunday School class there for 20 years.

He opened his store here in 1941 and in 1947 opened a second one. Before coming here he owned and operated a motor car agency and appliance store at Portageville, Mo.

He has been a member of the Board of Education of the Sikeston Public Schools since 1963.

A gymnasium at Anderson College in Anderson, Ind., a Church of God affiliated institution, is named for Lewis, who has been an ardent supporter.

One son, David, 21, is studying the ministry at the college now.

Another son, Donald, 30, is employed by his father and a daughter, Mrs. William Moll, lives in San Antonio, Tex.

At the same time, however, both denominations are involved in wider talks seeking to fuse seven major Protestant bodies — the Consultation on Church Union.

Participants in this effort hold their fifth annual conference May 2-5 in Dallas, with an outline of a specific plan of union ready for consideration for the first time.

It is being made public Friday in Washington. Committee studies have been going on year-around for five years, with preliminary agreements reached at annual conferences on major points.

Involved in the talks, besides Methodists and the E.U.B., are United Presbyterians, Episcopalians, Christians (Disciples), the African Methodist Episcopal Church and the United Church (including Congregationalists).

Altogether they have more than 22 million members.

Several more limited merger moves are germinating, both between some of those in the larger negotiations, and others outside it. In one case, two regional denominations, neither of them participants in the wider negotiations, are progressing toward merger.

They are the Presbyterian Church, U.S., whose approximately 1 million members are mainly in the South, and the Reformed Church in America, whose 235,000 members are mainly in the northern half of the nation.

Both are rooted in Calvinist traditions, the Reformed Church stemming from Holland, the Southern Presbyterians from Scotland. Joining the two sectional bodies would form a church of national dimensions.

After four years of preliminary talks, committees were assigned in March to start drafting a specific merger plan, to be ready to present to denominational conventions in 1968.

The work has advanced from "courtship to the pencil-and-paper stage," said John A. Fulton, of Louisville, the Southern Presbyterian co-chairman of the joint negotiating team.

Other bilateral and trilateral merger impulses are at work within the circle of the seven-denomination union consultation.

The United Church of Christ, itself a 1958 merger of Congregational Christians and Evangelical United Brethren, has held unity talks with the Christian (Disciples) Churches.

These have been held up temporarily, dependent on the outcome of the more inclusive negotiations. Together, the two bodies have about 4 million members — about 2 million each.

The African Methodist Episcopal Church also has been considering merger with two other predominantly Negro bodies, the African Methodist Episcopal Zion Church and the Christian Methodist Episcopal Church.

They have about 2.5 million members. These negotiations also are momentarily in abeyance, since entry of the A.M.E. into the larger union effort.

However, in the case of the Methodist Church and the E.U.B., a merger plan already has been drafted, with concurrent conventions of both denominations scheduled in Chicago in November to act on it.

Both share the Wesleyan heritage, and have common doctrines and systems of church government. The Methodist Commission on Ecumenical Affairs said of the prospective merger:

"Such a step will bring into one current two related streams of spiritual life, so that God may be served in the present age more fully and more faithfully."

This was a common pattern on the Christian landscape — streams moving, shifting and running together, even as they approach the river.

MUNICH, Germany (AP) — Two former Nazi police officials were acquitted today of charges of aiding and abetting the 1939 mass murder of 349 Polish intellectuals near Bydgoszcz, in central Poland.

The court said there was insufficient evidence to convict Jakob Loelgen, 69, and Horst Eichler, 55.

The prosecutor had asked the court to sentence Loelgen to four years in prison and to acquit Eichler, a former lieutenant colonel in the Nazi SS (elite guard), because of insufficient evidence.

GUATEMALA (AP) — Final returns from the March 6 election give Julio Cesar Mendez Montenegro's party enough seats in Congress to guarantee election of the leftist law professor as president of Guatemala.

Mendez' Revolutionary party won 30 seats, the completed tally showed Thursday. The government-backed Democratic Institutional party, which ran Col. Juan de Dios Aguilar, won 20 seats.

Neither candidate won a majority of the popular vote in the three-way race, so the Congress will choose May 5 between the two front runners.

The third party, Col. Miguel Angel Ponciano's National Liberation Movement, won five seats.

JOHANNESBURG, South Africa (AP) — Prime Minister Hendrik Verwoerd's segregationist Nationalist party has been returned to power by the largest majority in South Africa's history.

The Nationalists won 126 of 170 seats in the all-white House of Assembly, election returns showed Thursday. The highest previous total was 111 seats, won by the United Party when it gained power in 1938.

The United Party, now the chief opposition party, won 39 seats in the election on Wednesday. The anti-segregation progressive party retained its one seat, held by Mrs. Helen Suzman, an outspoken critic of Verwoerd's apartheid policy of rigid segregation.

Only whites voted in the election. The country's 12 million blacks do not have the vote. The white population numbers 3,335,000.

Says Church Must Speak On Morality

BALTIMORE, Md. (AP) — Lawrence Cardinal Shehan says the church must forcefully speak out on the moral aspects of modern life.

In an address to an ecumenical assembly, the cardinal said the church should "point out man's duty to work for their solution and the moral principles then must be followed."

Helpless Man Wants His Release

BLUE EYE, Mo. (AP) — Bill Pinkley is home from the hospital, without hands and without feet.

The 26-year-old farmer and student is in a wheel chair but "I want to get out of it as soon as I can," he said.

His wife, Roberta, added: "He never was one to have someone waiting on him."

Tragedy struck last Feb. 11 when Pinkley was serving as a flag man for a cross-seeding pilot, using a 20-foot aluminum pole as a guide. As he moved to guide the pilot on his next pass, the pole hit a 65,000-volt power line.

Pinkley didn't lose consciousness, but he couldn't get up. His arms and legs wouldn't move. They were burned to the bone and were curled and knotted.

He was rushed to a Springfield, Mo., hospital, where he spent four days before he was transferred to Barnes Hospital at St. Louis.

"He hadn't been there 30 minutes until they said, 'Amputate his hands and both feet,'" reported the patient's father, Amos Pinkley. "Grangrene has set in."

The patient said worse days were to come.

"I wanted to die a lot of times. But if you can't die then you can't," he recalled. "Then I got to thinking about the children and I wanted to live."

The Pinkleys have two children, Patricia Ann, 4, and Judith Lynn, 9 months.

Pinkley had a year at Southwest Baptist College, another year at Southwest Missouri State College and had gone one semester to the School of the Ozarks, when he went to work here to replenish his bank account.

His goal is a degree in elementary education.

"I want to get some artificial limbs, try to raise my children, try to be useful," he said. "I

WASHINGTON (AP) — President Johnson traded quips with an expert Thursday night — comedian Bob Hope. Both got some laughs.

The occasion was the 25th anniversary dinner of the United Services Organizations, which honored Hope for his entertainment of U.S. servicemen all over the world.

The President turned up at the award dinner to present Hope with a plaque inscribed: "Thanks for the memory from a grateful nation."

"An extra chair turned up fast, didn't it?" Hope said, referring to Johnson's sudden show-up. The comedian added he was glad to be in Washington, "or as the Republicans call it, Camp Run-around. Well, it's nice to be back in birdland."

Johnson, while presenting the award, said he had come to honor a man with two very unusual traits: "He's an actor, so far as I know, who's not now running for public office. And he's a frequent visitor to Viet Nam who has never been asked to testify before the Senate Foreign Relations Committee — at least, not yet."

WASHINGTON (AP) — The Army Corps of Engineers says it expects to finish construction work on a \$2-million gravesite for President John F. Kennedy by fall. The new site is adjacent to the original one.

A spokesman also said flood lights are being installed at the new Arlington National Cemetery gravesite in case officials decide to allow mourners after sunset.

Foreign aid chief David Bell has been offered a high post with the Ford Foundation, say sources. It's understood Bell has made no decision yet.

Masons Meet For State Festival

JEFFERSON CITY (AP) — About 2,000 York Rite Masons will descend on Jefferson City Saturday for the first state festival in the fraternity's 150-year history in Missouri.

Former Secretary of the Army, Wilbur M. Brucker, Gov. Warren E. Hearnes, and state Senator A. Baise Vandlingham will have featured roles in the day-long program at the city's senior high school.

The festival class has been in honor of Gov. Hearnes, one of the nearly 800 candidates for the degrees and orders of the Rite.

Brucker, who served in the Eisenhower administration, is now grand master of the Grand Encampment of Knights Templar in the United States. He will confer a portion of the ritual work in observance of the sesquicentennial of the Grand Encampment.

A cast of more than 90 will portray the degrees and orders of the Rite beginning at 9 a. m. The program will conclude with a banquet at 6 p.m.

Van Landingham, grand master of the state's 120,000 Blue Lodge Masons, will be master of ceremonies for the banquet. Brucker will deliver the principal address.

'Super LBJ' Hits The Comic Books

NEW YORK (AP) — Is it a bird? Is it a plane? No, it's "Super LBJ," unveiled today in a comic book corny enough to make Batman blush.

The book, called "The Great Society," caricatures President Johnson as Superman, with a supporting cast based largely on characters from old comic strips and radio programs.

It has the same irreverent approach to presidential affairs as "The New Frontier Coloring Book" and "The JFK Coloring Book" which appeared during the administration of the late John F. Kennedy.

The book's villains include Businessman, a U.S. metals tycoon; Gaulefinger, a big-nosed Frenchman; Fu Man Lai, a wily oriental; Dr. Nyet, a Khrushchev-shaped Soviet, and the Sicko Kid, a bearded Cuban in military fatigues.

The good guys are Defense Secretary Robert S. McNamara as Captain Marvelous, Vice President Hubert H. Humphrey as the Shadower, Secretary of State Dean Rusk as the Phantom and Everett M. Dirksen, the Senate minority leader, as the Disagreein' Hornet.

Mrs. Johnson, in a scanty but fetching costume of red, white and blue, appears as "Wonderbird."

Lurking in the wings throughout the action are a couple of oddballs dubbed Bobman and Teddy who are plotting to take over the Great Society. They bear a great resemblance to Sens. Robert F. and Edward M. Kennedy.

Best line in the book is uttered by Captain Marvelous while making a lone stand against what he calls "the poorly clad, underfed, fanatical Chinese army."

Says the indomitable captain: "I should have closed down their bases as an economy move long ago!"

Agree On Male Pay

KAMPALA, Uganda, (AP) — The new strong man government of Premier Milton Obote has agreed to pay five deposed Cabinet ministers \$1,400 each for a day they spent in jail after their arrests without warrants. The arrests were legalized by issuance of warrants issued next day, a court held, and they are due to appear April 18 to show cause that they should not be deported.

Blood And Gore

Battle Of Gory Books Is Fought In Literary World

By HAL BOYLE

NEW YORK (AP) — In the literary world this looks like the year of the battle of gory best sellers.

It pits peacetime murder in Kansas against the wartime fall of Berlin.

Truman Capote, wispish author of "In Cold Blood," estimated recently his psychological study of the slaying of a Kansas farm family of four would gross \$2 million from all sources. It took him six years to do the book.

Probably his chief rival for top-selling honors is a 6-foot-1 Irishman, Cornelius Ryan, 45, who also spent six years turning out "The Last Battle," a monumental rendering of the capture of Berlin by the Russians in 1945.

Ryan has no idea as yet what his latest opus will do. But his last book, "The Longest Day," which dealt with the Allied landing in Normandy, sold more than four million copies in 27 countries.

Referring to Capote, better known as a novelist than as a nonfiction writer, Ryan remarked genially:

"For a cub reporter, he's doing great. I'm glad he has discovered the excitement of great journalism, of which he has done a masterpiece."

Unlike Capote, he makes no claim of having created a new art form.

"This style of writing was created by Thucydides when he wrote his history of the Peloponnesian War in 400 B.C.," he

said. "All I've done is use old-fashioned legwork."

It was rather expensive legwork. Ryan figures he spent \$100,000 in research in contacting 3,000 people in 15 countries, of whom he interviewed 700 in depth.

Surrounded by war maps and 7,000 books, Ryan spent three years in the library of his seven-acre Connecticut estate in the actual writing of his dramatic tale. The estate is named "Les Roches," after German Marshal Erwin Rommel's headquarters in France.

"I got so grumpy," he said, "that one morning my two children marched into the library and announced they were going to write a book and call it 'The Father Who Roars Like a Lion.'"

"Right now I'm shellshocked. I've been living with the war for over 23 years. I can't sleep more than five or six hours a night. After doing the film script for 'The Last Battle,' I'd like to try something else for a change."

And then? "And then I'd like to write two more books about the war. There's a lot that still has not been told."

Book Is Translated

ADDIS ABABA, Ethiopia (AP) — The late President John F. Kennedy's prize-winning book "Profiles in Courage" has been translated into Amharic, the language of Ethiopia, and is on sale at a U.S. exhibition here.

Sex-Politics Issue Controversy Grows

MILWAUKEE, Wis. (AP) — Sex and politics have mixed in Wisconsin, and the controversy is multiplying.

State Sen. Taylor Benson urged Thursday that Young Democrats oust supporters of a resolution adopted at the group's state convention calling for abolition of all legal restrictions on sexual relations involving consenting adults.

Republican State Chairman Ody J. Fish said, "I doubt if the people of Wisconsin favor sex as a statewide political issue."

The Young Democrats' state chairman, Conrad Goodkind of Madison, had this reply: "If Democrats are for it and Republicans are against it, that might account for the fact that there are more Democrats."

Cure Repetition

HYDERABAD, India (AP) — Dr. V. K. R. V. Rao, Indian planning commission member, suggested that newsmen could cure officials of making repetitive speeches. He told them that instead of reporting an official

speech they could print a notation saying: "Refer to the minister's speech published on a previous occasion."

Lloyd A. Noel Is Bound Over In Saline Court

Lloyd A. Noel, 48, Sweet Springs, was bound over to the May term of the Circuit Court of Judge Phil H. Cook following a preliminary hearing lasting more than two hours in the Magistrate Court of Judge Perry G. Stotts Tuesday afternoon in Marshall.

Noel is charged with felonious stealing of \$87.21 from the Missouri Heart Fund Association in March, 1965, by misuse and misappropriation of a check forwarded to him by the Grand Pass Extension Club treasurer when he was county-wide chairman of the Heart Fund. The check is alleged to have been deposited in Noel's personal account at the Third National Bank here and used by the bank to close out a personal note from Noel of \$200.

Saline County Prosecuting Attorney Allen S. Parish presented the state's case at this hearing and the defendant was represented by Wayne R. Starr, Jr., Independence attorney.

Third Ward Democrats Hold Rally

Third Ward Democrats held a rally Thursday evening at Whittier School. The meeting was opened by A. M. Cowherd, committeeman, who in turn introduced Davey Jones, city chairman. Jones stated that he was quite pleased with the response he was getting from the people and felt assured that on April 5, all Democratic candidates would be victorious.

James "Salty" Schumaker, Democratic candidate for mayor, in a brief address to the audience, stated "We are living in an age of jet air travel, space conquest and an age of new social ideas. If this city is to compete with the thousands of other cities throughout the land, we should be prepared to take the steps to make this community attractive to industry and to people both from the standpoint of services as well as education and culture. Your Democratic candidates pledge themselves to work in unity with the state and federal governments to this end."

Following the short talk of Schumaker, Judge Lawrence Englund, candidate for re-election was introduced. He stated, "If I am elected, I shall continue to dispense justice in the City Court as I have in the past in compliance with the requirements of the Constitution of the United States and the State of Missouri, and in accordance with the rules set forth by the Supreme Court of the State of Missouri governing city courts and magistrates, which make it incumbent upon me to release every defendant who is charged with an offense if there is a reasonable doubt as to his guilt."

Mrs. Opal Hugelman, collector and candidate for re-election, stated, "I will continue to do my best to give you the very best possible service in the collector's office and it has always been our policy to be courteous."

Mrs. Perry Strole, city treasurer and candidate for re-election, stated, "I have especially enjoyed my contacts with the people of this city and it is a privilege and an honor to serve as their treasurer and I will be most pleased and honored to be re-elected."

John C. McCloskey, city attorney, candidate for re-election unopposed, stated, "Judge Englund's experience as a city judge well qualifies him for his return to office. His conduct has been above reproach and anyone coming before him can readily be assured of a fair and impartial trial. All of our candidates are qualified and experienced and each and every one deserves your vote on election day."

The following candidates for councilmen were presented, James Askren, councilman from the First Ward seeking re-election; Walter Jesse, councilman from the Second Ward seeking re-election; Bob Wells, councilman of the Third Ward seeking re-election; and Floyd Priddy, councilman of the Fourth Ward seeking re-election.

Wells, councilman from the Third Ward, pointed out that cable television was awarded to the lowest bidder, after two bids had been submitted by all parties concerned, and that there would soon come into the city revenue of between \$10,000 and \$14,000 as a result.

Floyd Priddy, councilman from the Fourth Ward, pointed out the fact that the Republicans had made some irresponsible statements concerning the budget. "As of February 28, 1965, the balance was \$132,000, and as of Feb. 28, 1966, the balance was \$118,000. Contrary to what the Republicans have said this city is not in the red," Priddy commented.

Glenn Lewis, a candidate for mayor on the primary ballot, was the principal speaker. Opening, Lewis stated, "The Republican party has been jealous of the position of the Democratic party; it has been jealous of our national party and its achievements, such as Social Security and Medicare, and it is jealous on the local level. If they want to talk of civic pride and responsibility," continued the speaker, "I might remind them that I served with Walter Jesse for many years on the Hospital Board, without recompense. Democrats have civic pride and furthermore they have responsibility. The Republican candidate for mayor, although he is chairman of the Ordinance Committee, has not seen fit to bring the ordinances up to date during his term in office. If he cannot do a little job well, how can he expect to do a big one."

Lewis then turned his attention to the present mayor and said, "He has had four years a platform. And they talk about progress and the present mayor has been opposed to airport improvement in a jet age."

Continuing, Lewis said, "They

Accidents

Two vehicles, one parked, were in collision at 6:47 a. m. Friday in the 800 block on West Wilkerson. There were no apparent injuries.

Police said a parked 1963 Dodge owned by Robert Shull, 222 South Grand, and a 1955 Ford driven west on Wilkerson by Ralph M. Jenkins, Alexandria, La., were involved.

Damage occurred to the right front of the Ford and left rear of the Dodge.

There were no apparent injuries in a two-car collision on the Water Works Road, three and two-tenths miles south of Highway 50, about 7:25 a. m. Friday.

The Highway Patrol said a 1964 Chevrolet driven south by Clarence Henry Leiter, Route 2, and a 1961 Studebaker driven north by Lawrence Mark Smal, Route 2, were involved.

Damage occurred to the right front of the Leiter car and to the left front of the Studebaker, the patrol said.

A hit-and-run driver struck the right side of a 1960 Ford driven by Michael E. Williams, 17, 1706 West 18th, on the Safeway parking lot at 6:20 p. m. Thursday.

Police obtained a partial description of the hit-and-run vehicle and are investigating.

One person complained of a leg injury as a result of an accident about 5 p. m. Thursday, at the intersection of U. S. Highway 65 and Grand. Damage resulted to both vehicles involved.

Mrs. Coleene Jo Mittlehauser, 28, Route 4, driver of a 1959 Chevrolet, complained of an injury to her left leg, but did not go to the hospital.

Mrs. Mittlehauser was driving north on Highway 65 and was being followed by a 1957 GMC truck, driven by Vernie Vestal Church, 47, Route 4.

According to Trooper Southwick, Mrs. Mittlehauser was making a left turn on Grand Avenue road, and the left fender of her car was struck by the front of the truck.

The Chevrolet was spun around and traveled 60 feet to the left of the highway and came to stop along the west shoulder of Grand in a ditch. Mrs. Mittlehauser was able to drive her car away from the scene while Parks Citgo wrecker towed the truck away.

Church was given a Highway Patrol summons to appear before Magistrate Frank T. Armstrong, April 28.

Area Fires

Pettis County firemen made two runs Thursday afternoon with the second call being received via radio while the first was being fought.

The first alarm came at 3:15 p. m. from the Leonard May farm, Route 2, where grass and timber were burning. Firemen used a booster line and pump bucket to douse the blaze. Slight damage resulted to a pile of lumber.

While at this blaze, the truck was summoned to near Bryson where a large grass fire was in progress on several farms between there and Windsor near the Pettis-Henry County line.

The Windsor rural fire department also answered the call and the two companies extinguished the blaze with only slight damage resulting.

Police Reports

Jim Fleming, 2525 Woodlawn, brought a cream-colored purse and some keys to police at 8:02 a. m. Friday. He reported finding them in a ditch in front of the above address.

Terry Hazell, 1212 South Quincy, reported Thursday the theft of a white nylon jacket from Smith-Cotton High School. The jacket was valued at \$10.95.

Tim Mosier, 1107 West Seventh, reported the theft of a black reversible jacket to police Thursday. The jacket was valued at \$16.

Fires In City

About \$750 damage occurred to a garage and contents at 9:21 a. m. Friday when a trash fire ignited the building at the residence of Mrs. Pearl Kirk-

Party Holds Fourth Ward GOP Meeting

Republican campaign chairman Allen Hawkins called the Fourth Ward meeting to order Thursday evening at Horace Mann School. The Fourth Ward candidate for councilman George Dugan Jr. discussed the issues of the campaign, by asking "Should the citizens of Sedalia continue with this so-called 'progress' which incumbent candidates' spokesmen are telling us about. I refer to this 'progress' they are proclaiming with which we have been 'saddled' for the last twelve years? Or will we take advantage of our chance to speak so effectively at the polls that they will 'hear' and even have to listen?"

"I would like to take issue with the opposition's statement made last Tuesday night at their ward meeting when they said, quoting 'We doubt Republican candidates know how to conduct the city business.' I take their statement to mean that our candidates do not have the 'required' political experience to stall zoning, or other ordinances, or to pass unnecessary 'emergency' ordinances that will benefit and serve only a favored few. We Republican candidates would be first to assure you that we do not have their particular kind of experience. All Sedalian's have for twelve long years 'experienced' their kind of 'experience and action.' Or should we say in some cases lack of action?"

"I ask your consideration and opinion on the following actions they have taken. 1. The 'emergency passage' of an ordinance that they had 'kept tabled' for over a year. It is a matter of record what few benefitted from this legislation. 2. Consider the un-balanced budget 'through experience' they have learned to give the people they represent. Who is footing the bill? Is it this that they refer to as 'progress'? Can you figure which way, through their leadership, we are 'progressing'? 3. Their inability to pass zoning ordinances (all the while keep in mind they are 7 to 1 in a voting majority.) Zoning ordinances are vital to the growth of Sedalia, even in keeping industry and pay rolls which a native son has so successfully established here, and who at a recent council meeting threatened to move away. Will we lose another payroll? There is now before the council, ordinances which were 'recommended' by the zoning board. The council 'studied' these recommendations at one regular council meeting and at one recessed meeting, and are still unable to make a decision. In the name of progress do you suppose they intend for some devious reason to stall until after the election to take action?"

"Are we going to stand idly by while this so-called 'progress and experience' continues at the city hall?"

Permit to Alter Weather

Want to REALLY stand out from the crowd?

Then why not be the first in your group to be fined for altering the weather without a permit?

How's that for aloneness?

All you have to do is go ahead and alter without clearing it with the National Science Foundation.

That'll do it.

Who says so?

Congress, that's who. It has given authority to the National Science Foundation to order all weather-makers to give NSF 30 days notice or really head into a storm.

How come?

Because after talking about the weather all these years and doing nothing, people have all of a sudden started doing something and not talking.

At least not talking to the National Science Foundation.

You can see what happens.

Mr. Adams has planted his garden and needs rain to bring it along. So he seeds a few clouds—and whoosh!

But down the block the Smith girl is getting married. And her garden nuptials are washed down the drain by Mr. Adams' cloudburst.

Now, which pulls top rank—radishes or romance?

Somebody has to decide. Somebody has to be the umpire, or we'd be having all kinds of weather in the same place at the same time.

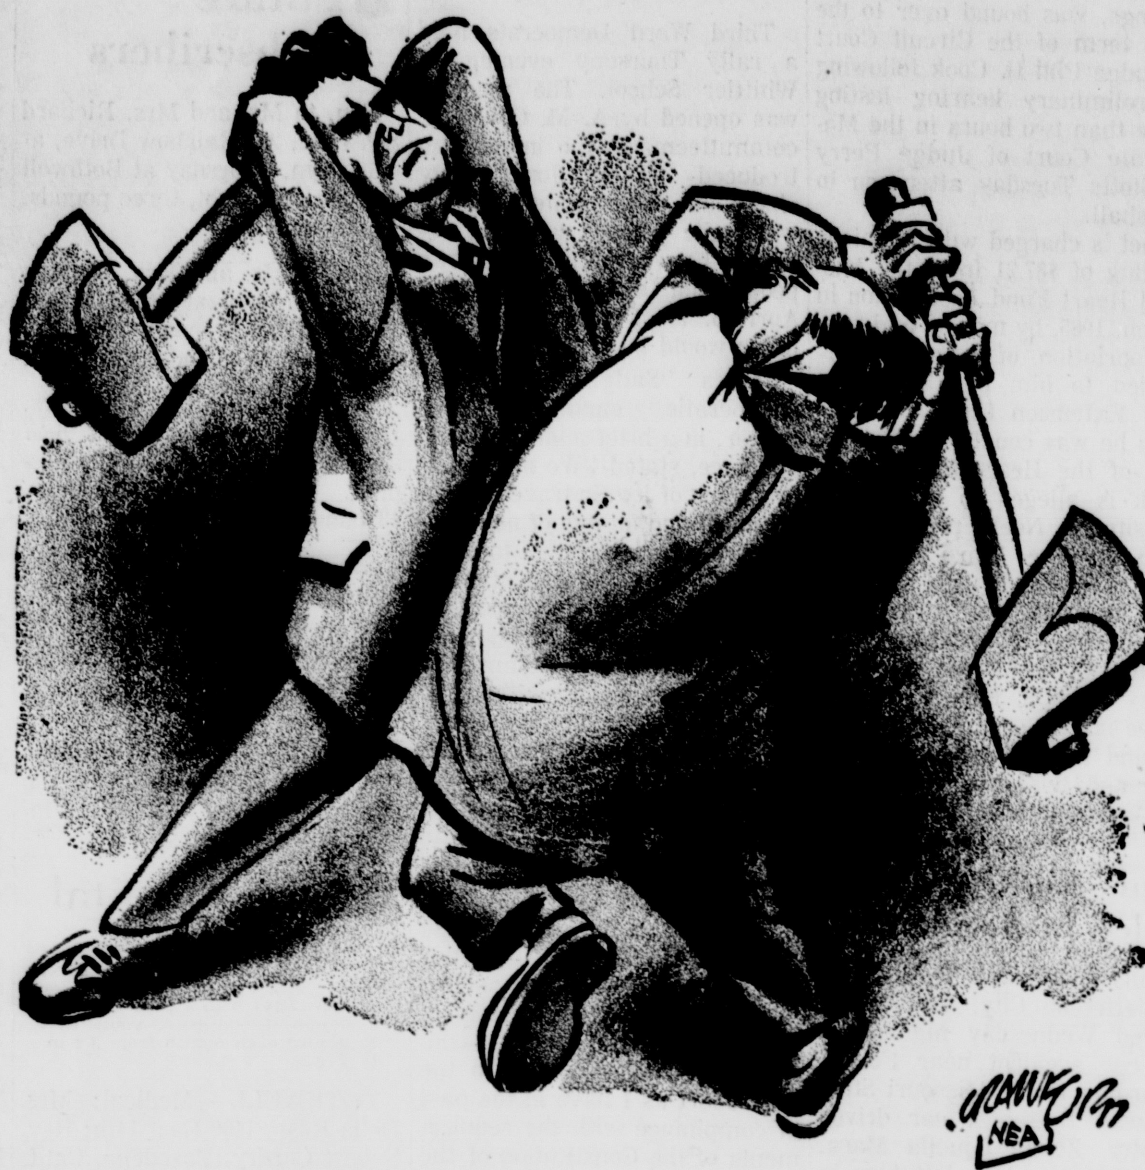

So the new law says that anyone who wants to change the weather has to clear it with NSF. And if the NSF says no, the shower-seeker can either gulp and say "fair enough" or ask for a raincheck on NSF's rain check.

But p-s-s-s-s-t, Mr. Adams. You want some rain without all this whoop-de-do?

Then merely wash your car and plan a weekend of golf.

Let's see NSF do something about THAT!

Job-Juggling a Little Mystifying

By JAMES MARLOW
AP News Analyst

WASHINGTON (AP)—"Jack and I hit it off from the start," said Walt W. Rostow, an idea man for John F. Kennedy before and after he moved into the White House.

President Johnson, who has shown great respect for some of the brainy men Kennedy picked as helpers, has now brought Rostow, intellectual and former professor, back to the White House to help him.

Rostow will have the title of special assistant but, since he and Johnson never worked this closely together before, it remains to be seen how well they hit it off.

The move really put Rostow, 49, back in his old job. For most of Kennedy's first presidential year Rostow was in the White House as deputy special assistant to the President for national security affairs.

Late in 1961 he moved over to the State Department as counselor and head of its policy planning staff, a job he held until Thursday when Johnson reached out and brought him back to the White House.

This kind of job-juggling is a little mystifying. Rostow's policy planning staff at the State Department took in the whole range of American foreign policy, present and future.

As a White House idea man for Johnson, Rostow probably will get mixed up in some domestic as well as foreign problems although Johnson indicated Rostow won't have to worry about much domestic stuff.

Johnson said Rostow will operate principally in the foreign policy field, explaining: "I shall look to him as a catalyst of ideas and programs on various continents of the world."

This is where the puzzle comes in: Why is it more important to have Rostow at the White House than heading State's policy planners, since his principal task in his new job will be the foreign field?

It might seem natural to conclude that Rostow will be the successor of the brilliant McGeorge Bundy, former Harvard dean, who was Kennedy's top White House assistant on foreign policy and link with the State Department. But Johnson brushes aside that idea.

He denies Rostow or anyone else is taking the place of Bundy who was kept in his job by Johnson until he recently resigned to become president of the Ford Foundation. He had a very high regard for Bundy's brains.

Johnson says he has appointed five men, including Rostow, to share Bundy's responsibilities. Nevertheless, as of now Rostow looks like the closest thing to Bundy.

Rostow first met Kennedy in 1958 and fed him ideas and did the same for him in the 1960 presidential campaign. Rostow had also helped the administration of President Dwight D. Eisenhower with ideas from time to time.

Rostow had a major part in shaping several of Kennedy's foreign policy statements in 1960 and some credit him with a big role in the launching of Kennedy's "Alliance for Progress" with Latin America.

He has had a special interest in Latin America, Russia, Red China, and communism in general. But he moved over to the State Department two years before Johnson became President.

Rostow, an economist and

economic historian, after his graduation from Yale taught at the Massachusetts Institute of Technology and at Oxford and Cambridge in England.

this column. You are in four spades after opening with one no-trump and getting a Stayman two-club response from your partner.

You apply the word ARCH. Analysis of the club lead tells you that you wish West had opened any other suit. Review of the bidding reminds you that you are in a 10-trick contract. A Count of your losers shows two in trumps, one in clubs and a very probable one in hearts. You ask yourself, "How can I make this hand," and proceed to try to get rid of the club loser in dummy by the process of leading out three rounds of diamonds.

Unfortunately for your well-thought-out plan, East trumps the third diamond and leads out the ace of spades. Then he leads a club for dummy to ruff.

Your first plan to make your contract has failed. What can you do to avoid a heart loser? A successful finesse won't help because you miss the ten, nine and eight and hold three hearts in your own hand. You can try to drop a singleton king. This play is certainly possible, but isn't there something better?

At this point you may look at the East and West hands. Now see if you can find the better play. Here it is:

You lead dummy's queen or jack of hearts. If East ducks you let it ride and cash your ace of hearts. Then you play your last diamond and throw West in with the high trump. If East covers the heart lead, you cash your last diamond, lead a second heart to dummy and throw West in with his high trump.

Either way West must lead a diamond or a club. You ruff in either hand and discard a losing heart from the other.

YOUR DENTAL HEALTH

The Mailman Cometh To Brighten Dentist's Day

By William Lawrence D.D.S.
Newspaper Enterprise Assn.

Among the serious letters I get from readers are some that are quite humorous—or perhaps facetious.

In response to a recent article on bruxism (night grinding), a woman in Texas writes, "I read with great interest your article on grinding teeth at night. I immediately mailed it to a friend whose husband has been a chronic grinder for years. In fact, they've recently gotten a divorce because it made her so nervous she just couldn't stand it any longer. It's amazing to think that adjusting his bite might have saved their marriage."

Mrs. S. writes from Georgia, "I'm disturbed by reading your article on teeth getting old. I'm 44, in good health, and raring to go. However, I fear my teeth may be aging, and I'm troubled to think that while my body remains young, my teeth may be getting old. I use wrinkle cream and exercisers. Are there similar things I can use on my teeth to keep them young looking?"

Dear Dr. L.: "I'm sure no one has told you this before, but do you know what I'm most proud of these days? That I'm able to spit. Yes, spit. I had a blood clot in my brain a few months ago, and the right side of my face was paralyzed. One of the things I couldn't do was spit. Now I'm able to control my tongue and lips again."

Dear Dr. Lawrence: "Is there anything you can tell me to do to get my husband's teeth to tighten up? He lost his job last week because the rope he was pulling the car with kept knocking his upper plate out."

Dear Dr. L.: "How can I get my 5-year-old son to sit for a filling? Without having any idea when his dental appointment is, he'll get up that morning and just one look at him and I know it's going to be a yelly, screaming day. He screams all the way to

the dental office. If he behaved I offered to let him ride up front with the chauffeur. But he still makes such an awful fuss that the butler refuses to accompany him to the dentist any more."

Dear Dr. L.: "Could you some day write about teeth and the single girl? I heard that decayed teeth are due to sinning. Is this true?"

Letters To The Editor

EUGENE WETZEL (Lincoln, Mo.)—Is Junior College a sound investment in the future for Sedalia? Consider the grade cut you automatically take in transferring from a two year college to a four year State College or University.

Do you know? At this time the branch College of the University of Missouri, located in Kansas City, Mo., the Kansas City Junior College and the branch of Warrensburg State College are competing for students and are gravely concerned for the future of these institutions unless more students enter in the near future?

Do you know? That the University of Pittsburgh, Penn., experienced an operating deficit of more than fifteen million dollars from 1959 to 1965?

Are Junior Colleges more capable of operating on a profitable basis than many of the well established Colleges which have had years of administrative experience?

Will the Junior College become the dumping ground for the undesirable students who are kicked out of our state Colleges and universities?

Mr. Tax Payer do you know that it is possible that the building program which may accompany the Junior College formation may require bond issues running into millions of dollars? And even though the Federal Government will match local funds it will place a tax burden on you and the coming generations which will lower property values throughout the entire District?

Do the retired citizens of Sedalia, Mo., who have only a fixed income, realize that the overall living costs are considerably higher in a College town than in the average community?

Do you know? That the records in Jefferson City show a total of nine hundred and one signatures on the petitions circulated for Junior College instead of more than twenty-five hundred as you have been told during the campaign?

Are you being offered a pig in a poke? Study the advantages of Junior College. Then study the liabilities involved before you vote.

MISS PHYLLIS MARSHALL, (LaMonte)—A Junior College in Sedalia is great. Your town needs a drawing card like a college plus a few more factories with good pay. This would keep the young people in the home town. Sedalia must move ahead. Your stores and shopping centers have expanded but your town needs the advantage of a Junior College which is a nice start. Please try next for a few factories. My vote is "yes" for a Junior College.

STEPHEN J. LACEY (605 West 32nd St.)—Vocational training, adult education, and the other programs offered by a Junior College would definitely meet a need in our community. Young persons, who, because of financial limitations, would be deprived of an education and therefore deprived of the opportunity for satisfying employment and a meaningful life, would be served.

Looking Backward

SALT LAKE CITY DESRT NEWS: ZAP! You're Dead.—So you lay awake nights because anyone, no matter how unbalanced, can lay his hands on mailorder firearms, eh?

Well get a load of this: There's a Kansas firm which is advertising "ray guns" for sale. "Want to build a Laser?" its ad asks. "You can build our Laser and Power Supply for only \$100. The Laser alone can be built for \$40. It is the lowest cost quality laser system in the United States. Shoots a pencil thin beam of light, will burn anything in its path in a fraction of a second, even through diamonds. Blue prints, directions, price and parts lists, only \$9.95 prepaid."

Okay, Senator Dodd, start rewriting your firearms control bill to bring mailorder ray guns under its provisions. Otherwise, the next time Junior aims menacingly in our direction and shouts "ZAP—You're dead" it may not be a toy with which he's playing.

Better Mail Service

The Post Office Department is over a five billion dollar annual business, yet it is often considered the government step child. The new Postmaster General, Laurence F. O'Brien, is determined to make this organization, founded by Benjamin Franklin, one of the best run agencies in Washington.

The volume of mail in the United States Post Office Department is equal to all the mail in the rest of the world.

In order to modernize the postal department, Mr. O'Brien needs the cooperation of everyone who posts a letter. Business mail should be staggered and not piled up until five o'clock.

The Postmaster General and his staff have begun to improve post office inspection in its 552 sectional centers to find out why there are delays and other problems in the service. Computers are being added and use of the zip code is a must. Next day delivery throughout the United States is a promise in the near future.

Staff changes due to retirement have brought in 70,000 new employees. Labor practices in the Post Office were antiquated but they are now being improved. There are a total of 630,000 postal employees who handle 200 billion pieces of mail daily. The number of mail trains has been reduced from 10,000 to 900 due to regional handling and other means of transportation. The Department has both a five year and a ten year plan to improve the service in all classes of mail. It is a tool of the people and needs to be used with speed and efficiency. Mr. O'Brien promises that this shall be accomplished.

Soviet Shifts War Eye to Latins

By RAY CROMLEY
Washington Correspondent
Newspaper Enterprise Assn.

WASHINGTON—Now, after several weeks of detailed study, U.S. officials take very seriously the recent Communist Tri-Continental Conference in Cuba.

This analysis makes clear:

Russia has radically shifted its program for Latin America. The past two years, apparently, Moscow has wanted to go slow in promoting Latin revolutions, except in a handful of countries. The Russians, seemingly, were playing it safe.

Now Brezhnev seems to be backing Castro in pushing for revolts in every Latin country as the opportunity arises.

The Soviet Union apparently has decided to back this new program with increased funds, arms and supplies.

Major emphasis will still be on Venezuela, Colombia, Guatemala and Peru. The Venezuelan Communist guerrilla chieftain, Pedro Medina Silva, was chosen head of the new organization that will funnel Red supplies to the Latin underground.

But the new objective—it now appears—is for Red guerrillas to be prepared for Dominican Republic-like opportunities, whenever and wherever they may appear.

The Reds are unhappy that they were not better organized and supplied at the time of the Dominican revolt. They hope that through this new program the next time they will be able to move in and take over

a country before the United States is able to move in force.

The Russians now seem in Latin America to be backing the tough Red Chinese line promulgated by Mao Tse-tung.

Some analysts here believe this Russian shift is in part a Russian attempt to take the initiative from Mao, who had been capturing the imagination of tough, militant young Reds in South and Central America.

In part, it's thought this new organization for promoting revolts (the Latin American Solidarity Organization set up at Havana at the Tri-Continental Conference) is intended to stir up enough of a furor to weaken the U.S. military effort in Viet Nam.

Another Dominican Republic, or a series of similar episodes, the Reds reason, would strengthen the hand of those who argue that the United States cannot at one and the same time fight to win in Viet Nam and keep its commitments in Latin America, Europe and Africa.

There is some evidence that the Russians have been discouraged of late with the failure of their attempts to win over governments with political activity, subversion and other means short of guerrilla wars. They are thus in the mood for putting a greater push behind underground wars throughout the world—in places where Russia can step aside if things go the wrong way. Analysts believe the Russians will make certain wars that escalate won't involve them.

Most probable result here: a step-up in the U.S. training of Latin military officers and police in counter-guerrilla tactics.

Christians In Deeper Isolation

By JEAN HELLER

NEW YORK (AP) — Red China's increasing bitterness toward the Western world has driven its Christian churches still deeper into their lonely isolation.

The fact that the churches survive in fair numbers despite the pressures of an atheistic government is known only through reports from travelers and refugees.

Chinese Christianity has been cut off from direct contact with world church organizations since the Communists took over in 1949. Dr. Wallace Merwin, an Asian specialist of the National Council of Churches, sees little prospect of a change in the near future. The United Presbyterian Church in the U.S.A., however, is seeking by various means to hold the door open until a day comes when Red China may relax its hostility.

"There is an article in the constitution of every Communist nation, including China, that guarantees freedom of religion," Dr. Merwin said.

"And in China, there never

was the active effort to suppress the church as there was in the early days of Soviet communism. Nevertheless, the fact is, churches in China exist by the grace of the government, and church-to-state relationships are far from ideal."

Dr. Archie Crouch, spokesman for the United Presbyterian Church in the U.S.A., said it hopes to make contact with the churches in China through various ecumenical channels, such as the World Council of Churches.

Dr. Crouch said the church in which Presbyterians were most interested is the Church of Christ in China, made up of 17 Protestant denominations, primarily Presbyterian, which had missionaries in China until the Communist revolution forced them all out.

SAN FRANCISCO—Paul Olsen, 23, artist, looked around at the imperfect world and decided he had had about enough of it. One cause of his displeasure was a particular stop sign. Olsen fixed it temporarily but to the delight of passing motorists. Atop the police department "STOP" he put a sign reading, "THIS." Beneath he affixed signs reading in order, "SIGN," "HAS TO" and "GO." The sign was removed within minutes by souvenir hunters who beat the police department to the scene.

Situation Is Miserable At End Of Month

JEFFERSON CITY (AP) — March ended in Missouri's two worst Ozark fire districts Thursday in much the same miserable situation as prevailed there most of the month.

Erwin Hafner, forester for the State Conservation Commission said the Lake of the Ozarks district reported it had only 12 fires during the day but the crews were having difficulty controlling them. No immediate estimate of the loss was available.

To make matters worse, a fire got away and burned the tires off a truck and destroyed a truck-powered water unit.

Hafner said he was trying to find equipment to replace the truck and water unit because predictions were that April 1 would be as bad in the district as was March 31.

Missouri's second worst area, the West Plains district, reported 16 fires during the day and eight more burning in late afternoon. Some 1,200 acres of grass and timberland already had been burned over.

The Eminence district reported five fires with two still burning and the estimate of loss was placed at about 75 acres. Elsewhere, the fire loss was minimal, Hafner said.

Milk Support Price

WASHINGTON (AP) — Secretary of Agriculture Orville L. Freeman Thursday set the producer support price for milk used for manufacturing purposes at \$3.50 a hundred pounds.

This rate, effective for the marketing year beginning Friday is 26 cents more than the current support.

Freeman also set the 1966 crop support price for soybeans at \$2.50 a bushel compared with \$2.25 for last year's crop. Freeman announced these actions at a news conference.

Convention Change

WASHINGTON (AP) — The American Symphony Orchestra League said Thursday it is changing the site of its national convention June 15-18 from Kansas City to St. Louis.

Mrs. Helen M. Thompson, executive vice-president of the league, said the switch was made because a Kansas City hotel is undergoing renovation and that two meeting rooms needed by the league have been closed.

Season Opener Near

Antitrust Suit Near Its End

MILWAUKEE, Wis. (AP) — After one month and one million words, the trial of Wisconsin's antitrust suit against baseball is nearing an end.

The verdict — with all its repercussions for the National League, the Braves, Milwaukee and Atlanta — is likely to come just in time to collide head-on with the opening of the baseball season 11 days from today.

Defense attorneys said they planned to rest their case today.

Each side will have one more time at bat in the courtroom in rebuttal testimony. The state was expected to wind up in only one day.

Sanders Takes One Stroke Lead

GREENSBORO, N.C. (AP) — Doug Sanders was doing all right for a sick man today as he took a one-stroke lead into the second round of the \$100,000 Greater Greensboro Open Golf Tournament.

Sanders, 32, seeking his third tournament victory of the year, shot a six-under-par 65 Thursday despite a cough and chest cold.

Several gulps of cough syrup helped him card nine birdies, a bogey and a double bogey over the 7,029-yard Sedgefield Country Club course.

"It looks like I'll do all right as long as I stay sick," Sanders joked.

One stroke back at 66 was Al Geiberger, who got off to what he termed a "sloppy" start. He missed a 15-foot putt on the 18th hole that would have tied him for the lead.

Sam Snead, defending champion and eight-time GGO winner, was tied with Howie Johnson for third with 67. Deadlocked at 68 were Bobby Nichols, Don January, Bob Goalby, R. H. Sikes, Terry Wilcox, Steve Reid and Tom Weiskopf.

Grouped at 69 were Frank Beard, Davy Hill, Roy Pace, Dave Ragan, Ken Towns and Harold Williams.

In all, 25 players bettered par of 71, despite bothersome winds and hard greens.

Arnold Palmer, who fired a sizzling 63 in a pro-am warmup on Wednesday, finished the first round with an even par 71.

Circuit Judge Elmer W. Roller, hearing the case without a Jury, has said he wants to make a ruling by April 12, the day the Braves are scheduled to open in Atlanta.

Wisconsin has accused the National League and its 10 members of violating antitrust laws by approving, through what the state calls a monopolistic conspiracy, the transfer of the Braves from Milwaukee to Atlanta.

Wisconsin wants the Braves back — now — or an expansion team for Milwaukee — immediately.

Baseball attorneys have argued the departure of the Braves after 13 seasons here was economically justified. And they have said expansion in 1966 is hopelessly impossible, although Roller has told the league to be prepared to add another team if he orders it.

Into the trial record so far has gone more than 1 million words of testimony, covering 6,179 typewritten pages of transcript. There have been 27 witnesses, 16 depositions, and 511 exhibits presented in the trial that began Feb. 28.

The most dramatic testimony may have come Thursday, but none of it was public.

The day's proceedings were concentrated in Roller's chambers, where testimony dealt with the confidential financial records of the National League clubs.

Roller, sealing his doors, honored his pretrial pledge that the profit-and-loss records would be kept from public scrutiny.

After rebuttal testimony, closing arguments are planned. They probably will be made in the form of written legal briefs.

The verdict, when it comes, is considered almost certain to be challenged by the losing side in a series of appeals which may reach the U.S. Supreme Court.

Gulfstream Polished For Derby

MIAMI, Fla. (AP) — Gulfstream Park was being polished today for the 15th running of the Florida Derby, with 11 3-year-old colts going in the 1 1/4-mile Saturday feature.

If form holds true, the winner will come from the quartet of Kauai King, Amberoid, Abe's Hope and Bold and Brave. In the last eight runnings, the winner has gone postward the favorite.

Kauai King probably will be a slight favorite after his triumph in the Fountain of Youth Stakes 10 days ago, when the dark bay son of Native Dancer whipped Amberoid, Abe's Hope, Sky Guy, Bold and Brave and others.

All are back for the Florida version of the Derby, along with Barmer, Blue Skyer, Low Son, Rehabilitate, No Love Lost and Williamson Kid.

"This is as fine a field of 3-year-olds as can be assembled today," said Michael J. Ford, owner of Kauai King. "All are hard-hitting horses. Don't discount any of them."

Owner William G. Helis Jr., and trainer Nick Combest thought enough of Sky Guy to make him eligible upon payment of a \$5,000 supplementary fee. The others were the best from a field of 74 nominees, among them the injured Buckpasser and the recovering Graustark, both of whom will miss the race.

With 11 starters, the race will gross \$123,400 and the winning owner will get a check for \$83,400.

Post time is 4:45 p.m. EST. Sports Network will telecast it to Eastern cities.

Stanley Cup Playoffs Will Start April 7

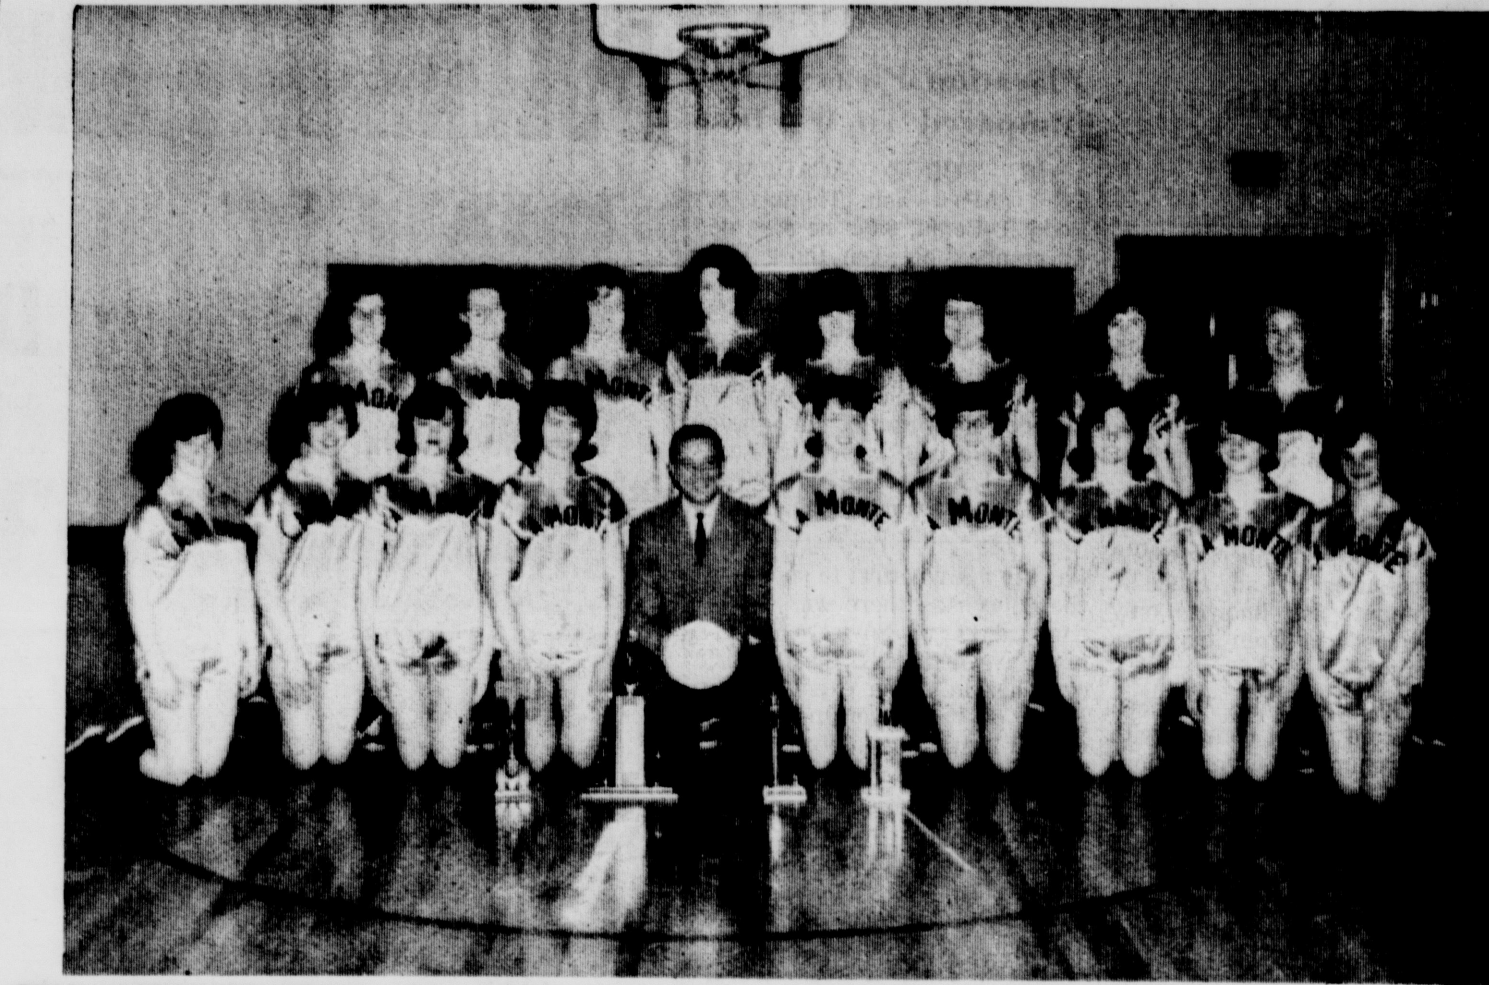

MONTREAL (AP) — The post-season Stanley Cup playoffs will start April 7, the National Hockey League announced Thursday.

The competition will match the first-place team against the third-place team, and the runner-up against the fourth-place club.

The Montreal Canadiens currently head the standings followed by Chicago, Toronto and Detroit in that order.

The schedule, for the first time in the circuit's history, lists two afternoon playoff dates, Sunday, April 10, and Sunday, April 17, both in Chicago with Detroit furnishing the opposition.

The National Broadcasting Co., recently announced plans to televise a minimum of three afternoon Cup games.

ONLY UNDEFEATED TEAM — The LaMonte Vikings volleyball team, the only volleyballers in the PBCAA who weren't defeated during the 1965-66 season, are shown here with their coach, Bob Schackelford. Front row, left to right, are: Cathy Crouch, senior; Diann Bishop and Gaye Hansen, juniors; Janice Drunert, senior; Coach Schackelford; Carol Jahn, junior; Carol Jones, freshman; Linda Gill, junior; Susie Wheeler, sophomore; and Pattie Peters, senior. These nine were the starting team this last season. Back row, left to right, Marilyn Forbes, and Sherilyn Forbes, both juniors; Carol Crouch, sophomore; Nancy Durham, junior; Becky Durham and Debbie Gibson, both sophomores; Betty Thompson, junior; and Carol Whitworth, junior.

First In Several Tourneys

LaMonte Girls' Volleyball Team Unbeaten In Season

The LaMonte girls' volleyball team took the championship in the Stover Tournament last week and ended their season, but not before they had taken first place in three tournaments, and the PBCAA conference championship to boot.

LaMonte's girls won a phenomenal 22 games in a row during the season, starting out with a 32-21 victory over Stover early in the season.

Coach Bob Schackelford, who said Thursday he had submitted his resignation at LaMonte to take a coaching position with Stover, told The Sedalia Democrat-Capital the girls' toughest opposition came from the California squad. LaMonte won that game by only two points, but it was an important victory for the team.

To win the conference title, LaMonte had to out Lincoln, 44-23; Cole Camp, 30-14; Northwest, 46-16; Sacred Heart, 38-16; Green Ridge, 42-14; Warsaw, 32-11 and Smithton, 38-22.

In most cases the scores were as lopsided as those in PBCAA action. The LaMonte quad did have some close calls, however. California figures prominently in this category. Besides the one game already mentioned, LaMonte beat California 29-25 after the season opener with Stover.

About the worst that LaMonte ever beat a team during the season was in the conference tournament when the girls whipped Northwest (which took the league title in basketball) 69-4.

A bulletin issued by the school states that LaMonte's volleyball squad is "very probably the only unbeaten team in the school's existence."

Janice Drunert and Patty Peters were the co-captains for the team. The rest of the team is made up of Cathy Crouch, Diann Bishop, Gaye Hansen, Carol Jahn, Linda Gill, Susie Wheeler, Marilyn Forbes, Sherilyn Forbes, Carol Crouch, Nancy Durham, Becky Durham, Debbie Gibson, Betty Thompson and Carol Whitworth.

Many of the girls will be back next year, giving LaMonte the prospect of another good season ahead.

Records May Fall In Relays

AUSTIN, Tex. (AP) — World record performers and potential records will be among the first of 1,320 athletes swinging into the Texas Relays today.

Southern University, which holds the world mark for the mile relay at 3:04.5, and Texas Southern, which came within two-tenths of it with 39.9 in the 440-yard relay, are in opening preliminaries of the big track and field meet. The Southern quartet is back intact.

Trials in most running and field events and a scattering of finals — one bringing Randy Matson, the Texas Aggie giant who holds the world record in the shot put, into competition — are on the day-long schedule. Matson will be in the discus finals in the afternoon and might hang up a Texas Relays record. He has sailed the platter over 180 feet. The record is 188-8, held by Matson.

7-Team Pennant Race Is Seen By Cronin

BOSTON (AP) — American League President Joe Cronin predicts a seven-team pennant race and a trend toward more exciting play in the 1966 season.

Back from a swing of Florida training camps, Cronin told Boston baseball writers Thursday that he is "optimistic" for the first time in years over the flag chase.

"In the past, the league has been dominated by the New York Yankees," Cronin said. "This year, though, is one of the most difficult ever to predict a winner. All clubs appear to have improved."

Cronin named the defending champion Minnesota Twins, the Detroit Tigers, the Chicago White Sox, the Baltimore Orioles, the Cleveland Indians and the Yankees as contenders. Then he added, the California Angels on the advice of their general manager, Fred Haney.

Celtics To Meet Royals Tonight

BOSTON (AP) — The Boston Celtics, battling for their pride in quest of an eighth straight National Basketball Association championship, meet the upstart Cincinnati Royals tonight in a decisive showdown of the Eastern Division semifinal playoffs.

There's no tomorrow except for the winner and neither the Celtics nor the Royals were in any mood for April Fool jokes in heading into an all-or-nothing clash at the Boston Garden.

Despite a hex in which neither team has won in two tries each at home, the Celtics rule a slight favorite to capture the best-of-five series and qualify for a crack at the Philadelphia 76ers in the Eastern Division finals starting Sunday.

Jim Ryun, Kansas freshman who holds the American record in the mile, 3:55.3 — appears Saturday in the invitational mile. He will have competition from Robin Lingle, former Missouri star who has been one of the big men of past Texas Relays, and John Camien, the Emporia, Kan., ace who has won the event four straight times.

Mays Told To Stay Off Ball Field

By MURRAY CHASS Associated Press Sports Writer

Two weeks ago Manager Herman Franks of the San Francisco Giants ordered Willie Mays to stay away from the ball park. "I've just gotta slow him down," Franks said. "He's coming along too fast."

Mays took another day off today, his third since the exhibition schedule started March 12. In between those days of rest, though, the 34-year-old whiz has slowed down about as much as he does during the regular season.

In the Giants' 7-4 victory over California Thursday, Mays increased his spring average to .382 by lashing two doubles and a single and drove in two runs for a total of 13.

Mays has accumulated most of his 21 hits and 13 RBI while playing only five and six and sometimes seven innings in a game. His nine-inning performance against the Angels marked his first complete game of the spring.

"He just gets better and better," California Manager Bill Rigney said.

In another exhibition of power Thursday, Tony Conigliaro hit his seventh homer of the spring and drove in four runs as Boston walloped Washington 10-0. Jim Gentile's three-run homer capped a seven-run sixth inning that powered Houston past Philadelphia 12-9.

Cincinnati edged Baltimore 3-2 on Art Shamsky's two-run homer in the ninth, and Mike Shannon and Lou Brock homered as St. Louis beat the Chicago White Sox 7-5.

Successive doubles by pinch hitter Sandy Valdespino and Jimmie Hall in the 10th inning opened the way for a three-run rally that gave Minnesota a 6-3 victory over the New York Yankees.

Detroit scored two runs in the ninth on Mickey Stanley's single and Jim Pagliaroni's passed ball for an 8-7 decision over Pittsburgh.

The New York Mets erupted for four runs in the seventh and handed Kansas City its sixth straight defeat 7-3. Ed Kranepool triggered the rally with a triple and scored as Ron Hunt fled out.

Gary Bell pitched seven strong innings as Cleveland ended a six-game losing streak by downing the Chicago Cubs 4-1.

NEW YORK (AP) — Some time during his 26-game season, Dave Wagon of Idaho State probably missed an easy lay-up. He definitely missed a couple of free throws.

And it was those two points that cost him the national major college basketball scoring championship.

Wagon finished with an average of 32.50 points per game while Dave Schellhase of Purdue, the leader throughout the season, came in with a 32.54 average.

Thus the 6-foot-4 All-America won the closest individual scoring battle in major college history. He scored 781 points in 24 games compared with 845 in 26 contests for Wagon.

Another All-American, Michi-

gan's Cazzie Russell, was the only other player with more than 30 points a game. His final average was 30.8.

Want Koufax In Movies

Feels Braves Have Talent For Victory

WEST PALM BEACH, Fla. (AP) — Bobby Bragan, manager of the Atlanta Braves, had just been asked to run down his team.

"Well," he said, "we've got nine guys who can hit 20 homers. We've got five starting pitchers. The bullpen is solid. And the bench is good."

Is Bragan confident?

"Yep," he replied. "If we can get Koufax and Drysdale to go back into the movies, and take a couple of pitchers like Marichal and Maloney with them."

And that's the way it is with the Braves. They feel they have the talent to win the pennant, and they certainly feel moving to Atlanta will help. But, in the National League, nothing is ever certain and Bragan wouldn't mind a little help.

Most of it will come from his players with the Braves ready to field veterans at all positions. As a matter of fact it may be difficult for a rookie to break in anywhere.

First there are those nine 20-homer hitters — outfielder Hank Aaron, catcher Joe Torre, third baseman Eddie Mathews, outfielder Felipe Alou, outfielder Mack Jones and catcher-first baseman Gene Oliver, all of whom hit 20 or more last season.

Bragan then adds in first baseman Lee Thomas, acquired from the Boston Red Sox after hitting 271 with 22 homers and 75 runs batted in, and outfielder Rico Carty and shortstop Denis Menke, who hit the 20-homer mark in 1964.

The only non-qualifier is second baseman Frank Bolling.

Two of the 20-homer hitters — Carty and Oliver — figure to start the season on the bench unless Bragan decides to platoon. Add veteran Frank Thomas and there's little doubt why Bragan smiles about his bench.

Pitching could be the only question-mark with the make-or-break pitcher likely to be Denny Lemaster, a 17-game winner in 1964 who slipped to 7-13 last season.

Lemaster or Hank Fischer, 8-9 last year, figures as the No. 4 starter behind 24-game winner Tony Cloninger, Ken Johnson and Wade Blasingame. Veteran Arnold Earley, also acquired from Boston, will add strength

Track Meet Tabulation Was Erroneous

An error in the calculation of finishing positions in the triangular track meet between Sacred Heart, Cole Camp and Leeton at Cole Camp Tuesday afternoon was discovered Thursday and the final standings were altered as a result.

The correction gave the meet championship to Cole Camp with 68 points over Sacred Heart with 67 and Leeton with 60 1/2. According to Coach Cousins of Cole Camp who conferred with Coach Jim Gladbach of Sacred Heart, the miscalculation occurred in the high jump event. Sublet of Cole Camp was the winner with a jump of 5-6 while Kroenke of Cole Camp finished second with a jump of 5-4. The error came in the running for third place which at first listed Cronhardt of Leeton as the winner of third. A review of the finishing, however, found that two Cole Camp high jumpers, Linville and Stoneking, cleared the 5-2 mark for third place as well as Cronhardt. Cronhardt, though, required three attempts to clear the bar at that mark while the two Cole Camp athletes cleared it on their second tries.

Thus, Cole Camp took the first four positions in high jump while Leeton took fifth, giving Cole Camp two more points than was previously reported and subtracting two from Leeton's total.

Despite Lemaster's fall last year, the Braves were in the middle of the pennant fight until mid-September — only 2 1/2 games out — when they finally slipped and fell back, finishing fifth, 11 games behind the Los Angeles Dodgers.

But one major factor has to be considered this year besides the wealth of talent: The Braves did not fight. They switched.

The attitude on the club seems to have changed with the move from Milwaukee to Atlanta.

"We certainly would have had a better chance of winning last year if we had played somewhere else," Bragan said. "You don't relish the idea of playing before 5,000 or 6,000 people at home."

The courts willing, the Braves won't have to.

It could make the difference.

Grand Jury In Third Working Day

CHICAGO (AP) — A federal grand jury investigating gangster influence in professional boxing reportedly was to begin its third day of sessions today with the entire proceedings wrapped in secrecy.

Spokesmen for the U.S. Attorney's office refused to disclose to newsmen whether the probe would continue today. However, the grand jury, scheduled to be dismissed Monday, was held over indefinitely at the government's request, an indication of further hearings.

At Thursday's session, Bernard Glickman, 51, the government's prime witness, testified before the grand jury.

As far as could be determined, Glickman was the day's only witness in the seven-hour session.

In an attempt to maintain the secret characteristics of grand jury proceedings, Glickman was whisked into the Federal Building via an underground entrance.

Attempts by newsmen to spot him leaving the building were fruitless despite a constant watch at all exits.

The grand jury opened its probe Wednesday, hearing at least seven subpoenaed witnesses.

Glickman's tie-up with Ernie Terrell, World Boxing Association heavyweight champion, led to the probe. Glickman and Terrell are Chicagoans.

Glickman told the FBI he was beaten and choked Feb. 3 by Felix (Milwaukee Phil) Alderisio, an alleged hoodlum. Crime syndicate mobsters blamed Glickman for failure to engineer a bout between Terrell and Cassius Clay in New York's Madison Square Garden.

The New York State Athletic Commission refused Terrell a license Jan. 29 because of his alleged association with Glickman.

The government's organized crime unit, on the basis of Glickman's accounts of mobster activity in boxing, subpoenaed two reputed Chicago gambling figures, along with six men who are active in boxing in New York and Chicago.

Unanimously Endorse And Support A PETTIS-BENTON COUNTY DISTRICT JUNIOR COLLEGE

A Community College Such As Proposed Will:

1. Be a fully accredited college where those pursuing a degree can transfer credits toward their chosen profession to other colleges and universities.
2. It will offer advanced education to hundreds of young people who would not otherwise be able to attend college because of high costs. Through low tuition rates and the privilege of living at home, a 2 year college education can be obtained at a much lower cost than can be had by attending colleges away from home.
3. It will offer vocational and technical training for those not planning to obtain a degree. This will be based on the desires and needs of the community.
4. It will offer adult education for many people who either desire to obtain additional college credits or have a particular area in which they desire to improve themselves.
5. A Junior College will offer certain cultural advantages such as: Special events, drama, music, art, sports and lectures. These will be available to EVERYONE IN THE COMMUNITY.
6. A Junior College will assist local business and industry. It will also help to attract new industries to the community. There is a great demand, by industry particularly, to have available vocational and technical training courses. These are used in conjunction with the training of personnel for their type of operation. Surveys will be made prior to such programs which will show the needs and desires of the area.
7. It will help this area economically. Junior Colleges, by nature, have buildings, equipment, services and payrolls. New families will move into the area who will administer and instruct in such an institution. Maintenance staffs will be employed. Hundreds of college students will bolster the economic picture through purchases of their daily needs.
8. It will enhance the reputation of this area in the eyes of people in other sections of the state and nation because of the progress of the community in offering these educational advantages.
9. Our Junior College would have an "OPEN DOOR" policy regardless of religion, race, creed or color. The opportunity to apply for enrollment has no barriers. With pressures coming from the difficulty of admittance to larger institutions because of excessive enrollments and high academic requirements, many young people have problems of getting college training. Smaller classes and individual guidance is a key goal of a Junior College.
10. All of us have a moral obligation to provide adequate facilities and opportunities for our youth. The BEST investment for our future is in the boys and girls of today.

National Orchestra League Convention

WASHINGTON —(AP)— The national convention of the American Symphony Orchestra League will be held June 15-18 in St. Louis instead of in Kansas City.

The switch was announced Thursday by Mrs. Helen M. Thompson, executive vice president of the league.

Mrs. Thompson said the change was made because a Kansas City hotel is undergoing renovation and two meeting rooms needed by the league are closed.

New Cameras Aboard

VANDENBERG AIR FORCE BASE, Calif. (AP)—The sharp-pest day-and-night cameras ever placed in a nonmilitary satellite will be aboard the nation's newest weather watcher scheduled for launch April 26.

The Nimbus 2 will transmit 3,000 pictures daily to scientists to help them study the weather.

Get Honorary Degrees

HURON, S.D. (AP) —Vice President and Mrs. Hubert H. Humphrey will receive honorary degrees at the Huron College commencement May 31.

Mrs. Humphrey is a native of Huron. Humphrey's family moved here in the 1930s.

Mathew Brady, probably the best-known photographer in U.S. history, died alone and forgotten in an almshouse in a New York City hospital. Until the Civil War began he specialized in photographing famous persons, especially presidents of the United States. But in covering the Civil War in all its phases he spent his entire fortune of \$100,000 and went bankrupt. Some years later Congress voted him a payment of \$25,000 but he was already financially ruined.

Danger Signal Headaches Urge The

Although a headache is a painful experience, sometimes the one who suffers from it should be thankful for it is an indication that something is wrong with the mechanism of the body. It is like a red light on the railroad track that warns one to stop, look and listen.

Headaches may mean that something is wrong with the liver, the stomach, the ears, the eyes, or other organs. It's the beginning of preventable illness, and it comes as a warning in time to repair any initial mischief and ward off the ultimate consequences. Taking an aspirin or other drug to relieve the headache is like the ostrich putting his head in a hole in the ground to avoid danger. The drug may temporarily relieve the pain but will not correct the cause.

Chiropractic adjustments remove the cause of many types of headache and may avert future trouble.

These health articles are being presented through the courtesy of the Pettis County Chiropractors.

THE WEEKLY DEMOCRAT

Volume Ninety-Eight

Democrat Established 1868

Sedalia, Missouri, Friday, April 1, 1966

Number 13 \$1.50 Per Year

HALTED—This MoPac passenger train, No. 18 out of Kansas City, stopped, blocking a crossing in Sedalia after the railroad strike began, about 2:30 a.m. Thursday. Later the train moved to an unobstructive position under the Washington Street overpass. The crew stood by, awaiting orders to resume progress.

In case the strike was called off. The various offices in the Sedalia depot remained closed Thursday, however, the strike has not affected operation of the MoPac Shops in Sedalia. The train was still standing on the tracks late Thursday night. (Democrat-Capitol photo)

Says Prices Moving Up Too Fast

LBJ Will Call For New Restraint If Found Necessary

WASHINGTON (AP) — President Johnson said Thursday "prices are moving up much too fast for comfort" and, if necessary, he will call for new restraints on the economy—"election year notwithstanding." Presumably he was talking about a tax increase among other moves.

At the same time, Johnson argued "the American economy is not shooting off into outer space at the moment. But he cautioned that the recent rate of price increases "could not long be tolerated."

In an address at a meeting of the National League of Cities, Johnson said it is too soon to determine whether anti-inflation actions already taken will curb rising prices.

While holding out the possibility of more drastic measures later, the President described the current situation as one demanding caution rather than more strenuous measures.

"We are touching the brakes, not clamping them on, not risking a skid into recession or depression," he said.

The chief executive said his administration doesn't know yet whether past actions will block overheating of the economy.

"But if it isn't," he said, "We won't hesitate — election year notwithstanding — to ask for further fiscal restraint."

Lloyd A. Noel Is Bound Over In Saline Court

Lloyd A. Noel, 48, Sweet Springs, was bound over to the May term of the Circuit Court of Judge Phil H. Cook following a preliminary hearing lasting more than two hours in the Magistrate Court of Judge Perry G. Stotts Tuesday afternoon in Marshall.

Noel is charged with felonious stealing of \$87.21 from the Missouri Heart Fund Association in March, 1965, by misuse and misappropriation of a check forwarded to him by the Grand Pass Extension Club treasurer when he was county-wide chairman of the Heart Fund. The check is alleged to have been deposited in Noel's personal account at the Third National Bank here and used by the bank to close out a personal note from Noel of \$200.

Saline County Prosecuting Attorney Allen S. Parish presented the state's case at this hearing and the defendant was represented by Wayne R. Starr, Jr., Independence attorney.

Campaign For New Furnace Over Top

MARSHALL, Mo. (AP) — A campaign to raise \$1,500 to pay for a new furnace at the Butterfield Boys Ranch went over the top Thursday.

The campaign began after the furnace at the ranch gave out three weeks ago. Officials learned it would cost \$1,500 to replace it.

The Marshall Ministerial Alliance asked for contributions in what was called Operation Rescue. The ranch cares for 12 orphans.

Mo-Pac Is Ready To Resume Operations

ST. LOUIS (AP) — The Missouri Pacific Railroad said Thursday it was ready to resume operations almost immediately if workmen heeded a federal court order to halt strikes against eight major railroads.

A statement from Missouri Pacific headquarters in St. Louis said:

"Locomotives were removed from freight trains and serviced immediately, making them ready at once. All freight trains were held intact so they would be ready to move promptly at the end of the strike."

"Because... passenger trains were widely dispersed over the 12,000-mile system when crews left them all passenger trains will resume operations at about midnight, with their runs originating on scheduled at the point at which they were stopped."

Complete US Divisions Not Battle Ready

WASHINGTON (AP) — Secretary of Defense Robert S. McNamara said Thursday the only four complete Army divisions in the United States are not combat ready, but he insisted that the nation's over-all fighting fitness has not decreased.

McNamara released a letter to Chairman John Stennis, D-Miss., of the Senate preparedness subcommittee saying:

"I want to emphasize again that the use of these divisions for training purposes should not mislead us or others into concluding that we are overextended militarily, or that our overall combat readiness has decreased."

The defense secretary spoke at a news conference a day after Stennis said in a statement that McNamara had assured a Senate appropriations subcommittee last August that "all divisions are ready to go to combat."

Appealing for unity in a time of war, McNamara said "I want to avoid personalities" and praised Stennis as "a man of great personal integrity."

But the defense secretary, under fire increasingly from Congress, obviously was concerned about Stennis's statement which went at length into findings of subcommittee investigators that the four divisions 55 per cent of strength last summer.

Over Conservatives

Wilson Rolls In Massive Victory

LONDON (AP)—Labor Prime Minister Wilson rolled to a massive victory Friday over Edward Heath's Conservatives in Britain's national election.

Wilson triumphantly told party supporters in his Hutton electoral district near Liverpool: "This has been a great victory."

Three top-ranking Conservatives conceded Labor's win, although Heath himself declined to acknowledge defeat for the time being.

Incomplete returns of Thursday's voting gave Wilson's Laborites 302 seats, Conservatives 149, Liberals 5, with one to a Republican Labor candidate and

Facts Show Intersection On Grand, 65, Dangerous

The partially controlled intersection of North Grand Ave. and the new segment of Highway 65 has claimed one life, injured at least 15 persons and has been the site of property damage in excess of \$16,000, figures compiled by the Pettis County Sheriff's office and Missouri Highway Patrol indicated Thursday.

The intersection, which opened in 1964, is indicated by "Stop Ahead" and "Stop" signs at the north and south approaches on Grand. No signs, however, indicating that an intersection is near can be found on Highway 65 itself.

Authorities reported that the eastern portion of the new highway is the worst. It consists of a short hill, going into a curve and finally into a divided section of highway. But cars coming from the northeast on the new road periodically flash over the hill and are at the intersection before drivers are aware it is there, the patrol and sheriff's office reported.

A break-down of accidents by dates, property damage, and persons injured or killed follows:

1964
Nov. 7, \$250, no injuries; Nov. 18, \$3,300, three injured; Dec. 17, \$225, no injuries; Jan. 23, \$1,100, two injured; July 24, \$1,950, two injured; Sept. 25, \$800, one injured; Jan. 8, \$225, no injuries. Totals for year: \$7,850 property damage, eight injured, no fatalities.

1965
Jan. 28, \$325, no injuries; Dec.

ICC Again Moves To Ease Boxcar Shortage

WASHINGTON (AP) — The Interstate Commerce Commission moved again Thursday to ease the critical boxcar shortage on the nation's railroads.

It ordered eight railroads to speed a minimum number of empty cars each week to other roads whose car supplies are low.

The latest car distribution order takes effect Monday and will continue through May 26, the FCC said.

Railroads ordered to send at least 175 cars each week to other railroads include:

The Missouri-Kansas-Texas to the Union Pacific.

1, \$800, two injured; Dec. 25, \$900, no injuries; Jan. 3, \$1,500, one fatality and two injured; April 19, \$700, no injuries; May 7, \$90, no injuries; Oct. 16, \$170, no injuries; Oct. 27, \$325, no injuries. Totals for year: \$4,810 property damage, one fatality, four injured.

1966
To date: Jan. 2, \$800, no injuries; Jan. 7, \$2,200, one injured; Jan. 17, \$305, two injured; March 11, \$450, no injuries; March 17, \$160, no injuries. Totals to date: \$3,915 property damage, three injured, no fatalities.

Confirm Two Rabies Cases In the Area

Two confirmed cases of rabies, one in Sedalia and the other in Pettis County, were reported by the Sheriff's Department Thursday, and five persons are currently undergoing the somewhat painful series of 14 rabies shots to combat the possibility of contracting the disease.

The first instance involved a pet cat which reportedly bit eight-year-old Tillie Toll, 401 North Engineer. The cat, Sheriff Emmett Fairfax said, died two days after the girl was bitten.

The second case involved a ground squirrel which had been rescued from an inquisitive dog and kept in a cage as a pet.

The ground squirrel reportedly bit Mark Coley, age nine, Mathew Coley, age eight, both sons of Mr. and Mrs. Neil Coley, Route 2, and also Kenneth Zahring, nine, son of Mr. and Mrs. Keith Zahring, Route 2.

The Toll girl, both Coley boys and the Zahring boys are undergoing treatment, as is Mrs. Coley, who said Thursday she had the job of cleaning the squirrel's cage. Mrs. Coley said at the time she had abrasions on her hands and felt treatment was called for.

Both the cat and the ground squirrel were sent to the Missouri Department of Health, which confirmed that both animals were rabid. Sheriff Fairfax said. The ground squirrel was accidentally killed.

The two instances are believed to be the first two confirmed cases of rabies reported in the county this year. Residents of Sedalia and the county are urged to exercise caution whenever bitten or scratched by a pet or wild animal, Fairfax said.

Surprise Strike Piles Up Stranded Riders, Freight

Carriers Get Federal Court Order For Halt

CLEVELAND, Ohio (AP) — A surprise strike of 8,000 firemen stranded passengers and piled up freight on eight major railroads Thursday. About 14 hours after the walkout began, the carriers got a federal court order that it be ended.

H. E. Gilbert, president of the striking AFL-CIO Brotherhood of Locomotive Firemen and Enginemen, was on his way to Washington when the court order was granted in the capital by U. S. Dist. Judge Alexander Holtzoff. Gilbert said President Johnson had invited him to Washington.

In Gilbert's absence, it could not be learned from the union's Cleveland headquarters if or how soon the strikers would be told to comply with the court order.

In issuing the order, Judge Holtzoff said the strike involved the public interest.

"We have a war, and also the entire public is affected entirely aside from the war," the judge said.

The strike, called shortly after midnight, disrupted service on some of the eight struck lines and halted it completely on others. The struck roads have a 43,000-mile web of tracks spread across 38 states.

They are: the Pennsylvania, east of Harrisburg; Union Pacific, Missouri Pacific, Illinois Central, Central of Georgia, Seaboard Air Line, Grand Trunk Western and Boston & Maine.

Missouri Pacific was first to announce it was shutting down its operations which extend over 12,000 miles and into 12 states. A Mopac spokesman said the strike "would have a serious effect on the national defense."

By early afternoon the Pennsylvania halted passenger service and said freight service was "grinding to a halt."

The Union Pacific, the nation's longest rail line, had only three passenger trains operating with supervisory help in midmorning and reported 70 trains idle between the Missouri River and Ogden, Utah.

Transit authorities made emergency bus arrangements to help 12,000 commuters in Boston and 35,000 in Chicago. The Boston commuters use the Boston & Maine, the Chicagoans the Illinois Central.

Gilbert had maintained the walkout "cannot represent a national emergency" because it was limited to the eight carriers, with about 12.2 per cent of the nation's railroad track mileage.

He said the carriers struck were selected in a pattern that would leave all major population with some rail service from parallel lines.

The firemen's president also instructed the strikers to "handle and transport troop trains, hospital trains, milk trains and cars loaded with priority materials and supplies designated by the government as essential to national defense."

Gilbert, gray-haired, 59 and head of the firemen's union since 1953, held a morning news

Extension Of Enrollment Is Requested

Congress Believed Certain To Comply With Bid By LBJ

WASHINGTON (AP) — An estimated million American senior citizens who have not acted on the government's \$3-a-month medical insurance offer were virtually assured Thursday night of another chance.

President Johnson asked Congress to extend the deadline for two months — from midnight Thursday to May 31.

Congress was considered certain to comply, possibly setting an even later date than May 31. The Republican leadership has proposed Aug. 31.

The President made the proposal in letters to Senate and House. "I hope you will give it prompt and sympathetic consideration," he said.

Chairman Wilbur Mills, D-Ark., of the House Ways and Means Committee introduced the administration bill and signalled for early hearings. Any extension would be retroactive to Thursday night.

The number of persons who have signed up for the insurance edged toward 17 million, or 90 per cent of the estimated 19.1 million eligibles.

Speaking of the proposed extension, a high official said: "We want to gather in any stray lambs who may wish to join."

The program goes into effect July 1. It covers 80 per cent of doctors' bills, after a \$50 deductible. Persons past 65 pay \$3 a month, and the government contributes \$3. If Congress does not reopen the sign-up, two years must elapse before the rolls are reopened.

The insurance is separate from hospitalization coverage, which is available to persons past 65 as a matter of right and is financed by payroll levies under the Social Security system.

Thursday's deadline applied to people who reached their 65th birthday before Jan. 1 of this year. Those passing that milestone after Jan. 1 may sign up in a seven-month period including the three months before their birthday month, that month and the three months thereafter.

Five Are Reported Dead

Terrorists Wreck Officers' Billet

SAIGON, South Viet Nam (AP) — Communist terrorists wrecked a 10-story American officers' billet with a machine-gun attack and an explosive-laden vehicle, splintering the lower part of the building and inflicting many casualties before dawn Friday.

First reports listed five Americans dead and 66 wounded.

An American Navy captain estimated the casualties at the Victoria billet were heavier than those in the Metropole Hotel enlisted men's billet last Dec. 4. That cost two Americans killed and 67 wounded.

An eyewitness said many Vietnamese civilians in homes across the street from the Victoria, in southern Saigon, were killed or wounded.

Several Vietnamese kitchen workers on the ground floor of the American building preparing breakfast for the more than 200 officers who lived there were reported either killed or wounded.

One American officer said "Someone remembered seeing the girl at the cash register before the explosion, but she must have borne the full brunt of the blast and we haven't been able to find a piece of her since."

One Viet Cong attacker was believed to have been killed.

There was no trace of the other half-dozen terrorists who crept up to the billet along a dark street, opened up on two guards with machine-gun and shotgun-fire and then dashed off, leaving the explosive-packed vehicle to blow up and shatter the first three floors of the Victoria.

The explosion blasted right through some parts of the tall, narrow building. It crumpled walls and disintegrated furniture.

Some men had narrow escapes, hiding in bathrooms or lying under mattresses they pulled over themselves after being warned by the machine-gun fire.

Lt. James R. McGoodwin, Houston, Tex., said he moved from Room 007 on the ground floor, which bore the heaviest impact of the blast, only three days ago.

An eyewitness who was among the first on the scene "Nobody on the first floor could have lived through that." Ambulances loaded with wounded raced through the streets to the two major U.S. hospitals in the city soon after the 5:15 a.m. attack.

As the terrorists made off along the street from the billet, they threw grenades at several other installations, wounding more Americans.

McGoodwin said "I had a premonition about living on the ground floor of any building in Saigon. You can tell my wife

that I'm okay and thank her for suggesting that I pull out of that room."

Lt. William Stearn, a Navy flier from Queens Borough in New York City, said he feared he would drown after the explosion because his room was under the building's 12,000-gallon rooftop water tank. Stearn said the whole tank emptied after the explosion, pouring down his walls and onto the street.

A civilian from the U.S. Department of Defense, Ron Hunt of Baltimore, Md., said a motorcycle he had been waiting three months to be delivered was destroyed in the explosion. It was in a ground-floor store room.

Robbers Get Fortune In Hotel Job

MIAMI BEACH, Fla. (AP) — Four robbers hammered a fortune in cash and gems — perhaps \$2 million — out of lobby lockboxes Thursday in a hotel full of sleeping Passover season visitors.

Harbor Island Spa Hotel owner Larry J. Paskow said the loot might prove greater than a continuing tally was completed.

In any case the haul appeared to be the richest ever made among Miami Beach area resorts, plagued annually by professional burglars and hold-up men who prey on wealthy sunshine-seekers.

Police said the first 30 plundered boxholders claimed losses totaling \$856,000. About 70 of the boxes were smashed open.

The hotel was filled to capacity with 213 guests. Many of them came for Passover, the Jewish religious festival which starts Monday.

Interviews of guests and tabulation of their stolen money and valuables went on all day.

A woman in a red negligee wandered weeping through the lobby, saying she lost family heirlooms. She would not identify herself to newsmen.

The robbers, heedless of the noise they made, pounded away with hammer and cold chisel breaking the locks while night clerk James T. Yerby, 69, was held at gunpoint and two other men sat helplessly behind a locked restroom door.

Night bellhop Bernard Appleton, 61, one of the men locked in the restroom, said usually guests protest any noise at night but none apparently heard the "awful racket" which he said the bandits made for about 40 minutes.

Jesse Lamons, 27, who came in to pick up laundry, found a gun pressed against his ear and was locked up with Appleton.

Paskow said the 4 a.m. raiders appeared to be thoroughly familiar with the hotel on North Bay Island, one of several posh Biscayne Bay resort districts between Miami Beach and Miami. They disconnected a burglar alarm which normally would have sounded in police headquarters.

Paskow said that the hotel carries a million dollars of insurance on lockbox contents and that presumably many of the guests owning costly jewels had them insured also.

Two of the robbers wore ski masks. Appleton said gunman took one of his cigarettes but returned the rest of the pack.

The gang's swoop on the hotel virtually duplicated — in timing, tactics and operations — forays which cleaned out guests' lock boxes in two Miami Beach area hotels crowded during Passover season a year ago. The loot then was estimated at about \$200,000.

Then, as now, gunmen held up night clerks and smashed the locks.

Grant To Hospital

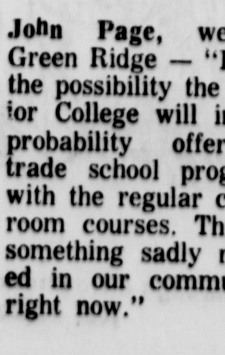

WASHINGTON (AP) — A \$333,915 grant by the Public Health Service to the Ellis Fischel State Cancer Hospital in Columbia, Mo., to help support its research center, was announced Thursday by Missouri members of Congress.

Personal Views On JuCo Proposal

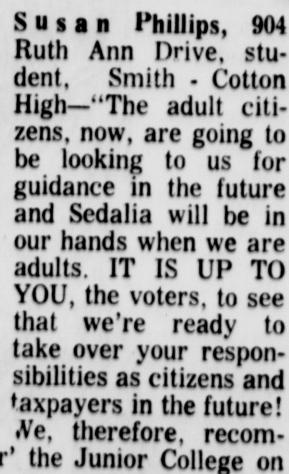

EDITOR'S NOTE: This is another in a series of personal comments by residents on the Pettis - Benton county Junior College District proposal to be voted on April 5.

Susan Phillips, 904 Ruth Ann Drive, student, Smith - Cotton High—"The adult citizens, now, are going to be looking to us for guidance in the future and Sedalia will be in our hands when we are adults. IT IS UP TO YOU, the voters, to see that we're ready to take over your responsibilities as citizens and taxpayers in the future! We, therefore, recommend you vote 'For' the Junior College on April 5."

John Page, welder, Green Ridge—"I like the possibility the Junior College will in all probability offer a trade school program with the regular classroom courses. This is something sadly needed in our community right now."

Mrs. Mildred Durril, Route 2, Green Ridge—"Naturally I am for it! We have children in grade school, and there is no doubt but what some day they will want to go to college and this would give them a wonderful start towards a degree."

June Letourneau, teacher, Smith - Cotton High School—"As a teacher in business education, I am particularly interested in the vocational part the Junior College would play in this community. For varied reasons, many of my students will not have the opportunity to go to a four-year college. Right here at home they could prepare for a well-paying professional job. This area of vocational training is also wide-open to adults who could receive training and be able to compete for better jobs."

Many Littles Make Mickles

You know what a mickle is?

A long time has passed since we last saw or heard that word mickle. It means a great amount or sum, like in quotations such as "many a little makes a much," "many a little by little and little maketh a mickle," or "many little things will make a heap."

Indeed, trifles are so important. When added together they can, for instance, cause lost customers to any kind of enterprise particularly the retail business.

Consider little things like management and employee indifference or lack of service. Sixty-eight out of every 100 customers are lost because of the deficiencies mentioned, according to a survey conducted by the Canadian Manufacturer's Association.

Call this and the following comments redundancy, tautology or what not, the conditions by which customers are lost persist in business everywhere. Older personnel may say they know all about the subject and resent reemphasis of it. But it must be remembered that every day and every week younger persons are brought in to the employment field to serve the public.

Hence the same subject, at least

for benefit of the newcomers, may be repeated in different words because it must be stressed that customer service is of the highest importance . . . without customers, there can be no jobs. Moreover, personal performance of every employee—from the top down—is directly related to customer service and personal security.

That's the way a trucking concern—the Ringsby System—lays it on the line. It warrants repetition.

Any company is headed for trouble unless every employee cultivates a healthy respectful attitude toward customers. Nothing is more vital to business than employee attitude: it shows up in little things—the way a letter is typed, whether a shipment is delivered complete or not, the way it is loaded to prevent damage enroute, the way a telephone is answered, the tone of voice over the counter, the manner in which complaints are processed and mistakes corrected.

An employer or employee can do hundreds of little things to irritate and drive away customers.

Close attention to minimizing these annoyances and business repellents will keep them from becoming mickles. **GHS**

Gee Whiz Mobility

This country may not be able to act as the world's policeman, but it's definitely improving its ability to get the cops on the beat when they're needed.

According to Gen. Howell M. Estes Jr., commander of the Military Airlift Command (successor to MATS, the Military Air Transport Service), we are approaching the day when an entire Army division can be airlifted to any place in the world in one week.

A typical division consists of 21,000 troops and 35,000 tons of equipment.

At present, a full month is required to do the job. New Starlifter jet squadrons planned to be operational in 1969 will reduce that to 24 days.

When the huge Lockheed C-5A transport begins arriving in 1971, the airlift time will be cut to 15 days. And when the Air Force has a full six squadrons of these planes, plus the Starlifters, it will be halved to seven days.

This is as far into the future as the general prognosticates. Progress is not going to stand still after 1971, however. It is conceivable that by the end of the century there will be great troop-carrying ballistic missiles capable of cutting the airlift time

Collegiate Beer Busts Mar Beach

By DREW PEARSON
WASHINGTON, D. C.
March 24, 1966

Dear Boys:

Since you were thinking about going down to Daytona Beach, Fla., for your Easter vacation, and since I had to be there to speak before the Executives Club this week, I thought I would report to you what it's like as a vacation spot.

As you know, Daytona has become the place where about 75,000 college and high school students go for their spring and Easter vacations, and some of the local people are a little overwhelmed at having this youthful army descend on them every year. They are flattered that so many young people want to go there, but they don't like the beer-drinking parties, the destruction of property and, in previous years, the battalions of motorcycles that have charged up and down the beach.

I could easily see why students like to go to Daytona. It is one of the most beautiful beaches in the world, with a hard-packed sand on which a car can drive for miles. Senator Muskie of Maine was telling me the other day that Maine's 2,600 miles of rocky, undulating shoreline has now been bought up by so many developers and private interests that only 34 miles are still available to the general public. But in Daytona the entire wide beach is available to the public for miles and miles. Naturally the kids enjoy it.

Curtain Beer Drinking?

However, one year they got so disorderly that the city council appointed a committee of leading citizens to consider what should be done about the annual arrival of the youth army. It was an able committee and they debated very carefully whether they should try to discourage this spring influx, or what.

In the end, they agreed that they should recommend against the sale of beer anywhere along the beach. They concluded that these were good kids, who should not be discouraged from enjoying one of the great beaches of the United States, but that beer was the chief reason for misbehavior, wild parties, and promiscuity.

So far, no action has been taken on this recommendation.

I talked to quite a few people about this question, and they generally agreed that only a small percentage of the youngsters get drunk, sleep six in a motel room, stage wild parties on the beach at night or cause trouble. The great majority are well behaved. But also it's a fact that various

underworld figures come to town just for the spring vacation period. So you face some problems and pitfalls in going to Daytona.

However, you have to learn to face problems and pitfalls in this life wherever you are and whatever you do. No boy or girl can go through life wrapped up in cotton wool.

Looking back on my own vacation days, I confess that I was always so anxious to get home that I never wanted to go anywhere else, even if I had the money—which I didn't.

When spring vacation came around up at Exeter, I never had the \$25 it took for carfare back to Philadelphia. So I stayed and studied and watched the snow melt and the spring come to New Hampshire, which was quite a sight. Most students wouldn't have dreamed about going to Florida in those days.

Home vs Florida

Of course, things have changed since then. The automobile has made it easier and cheaper to get to Florida. But there is one thing that hasn't changed—the importance of a boy's home.

As you know, I am the president of Big Brothers in the District of Columbia which tries to combat juvenile delinquency. And all the social studies show that boys stay out of trouble when they have a real home.

They may live in a poor neighborhood, even in the slums. They may have no money at all, and few clothes to wear. But if they have a strong and devoted mother and father, if they have love and affection and all that goes with a home, they are likely to stay out of trouble.

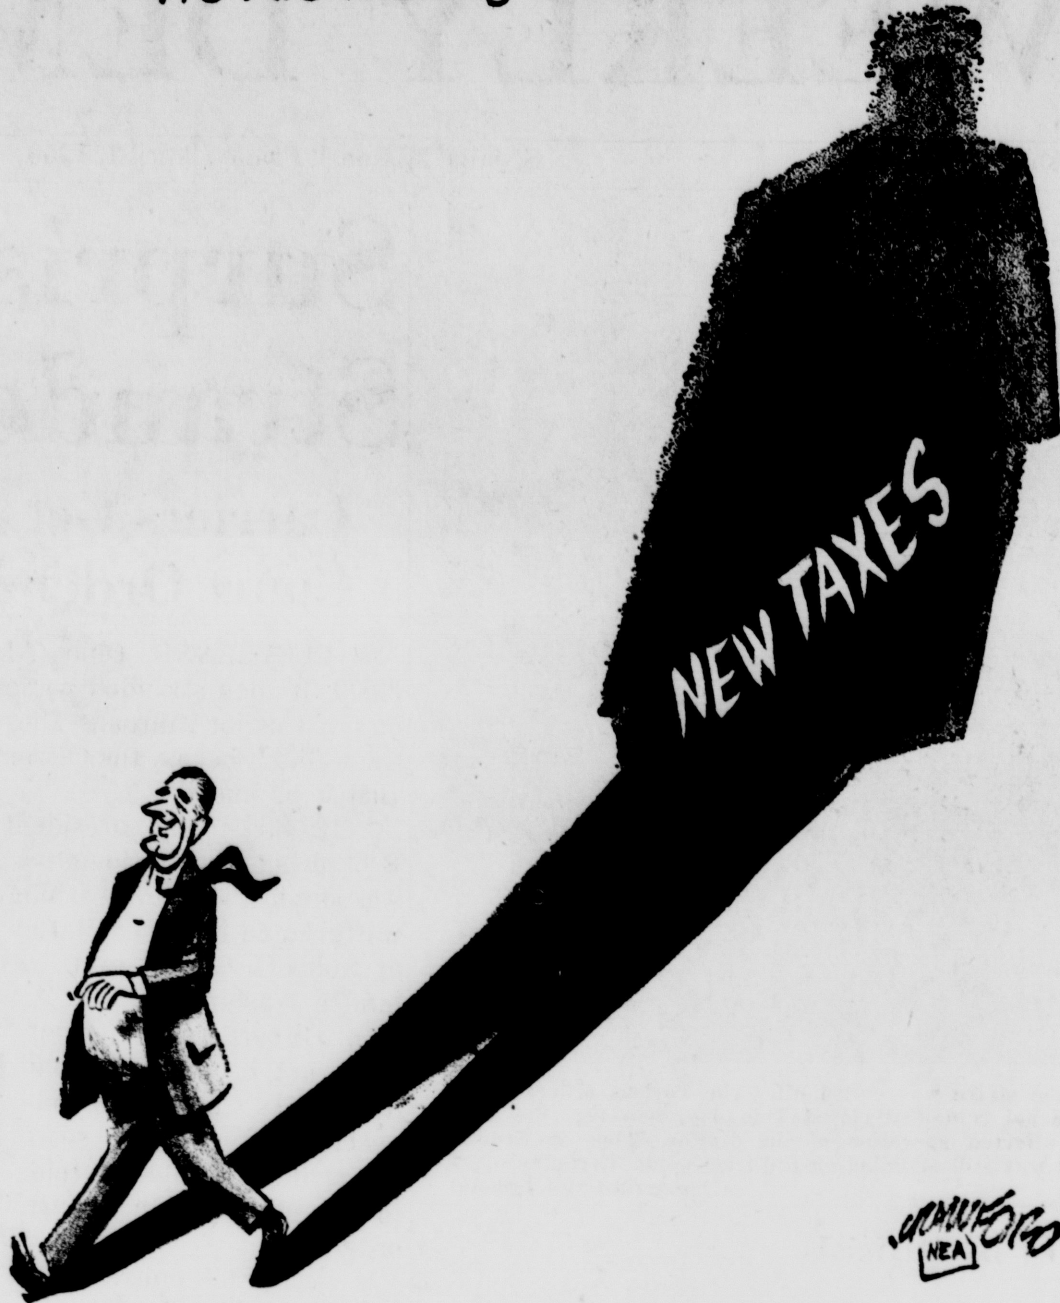

Some mothers who are divorced have an especially hard time, and one of the greatest stories of this is told by Dick Gregory in his book, "Nigger," of how his mother in Chicago struggled to bring up her children on almost no money.

Of course, some boys and girls who do have homes don't see much of their parents. They are busy with other things. And I suspect the chief reason why about 75,000 students descend on Daytona Beach in the spring is that their parents are negligent, or busy, or don't realize the importance the family plays in their children's lives.

So, beautiful as the beach is at Daytona, it can't be as beautiful as home. So I hope you'll not forget that you are luckier than a lot of other kids in having a home.

Make Him Take Notice

By RUTH MILLETT
Newspaper Enterprise Assn.

Every time I get a letter from a wife who complains that her husband doesn't appreciate her or pay her compliments, I wonder why she is complaining instead of going in for a little self-promotion.

If a husband never brags of his wife's cooking then she should tell him before he sits down to dinner that she has a special treat in store for him. With the proper build-up, even a silent husband will be made aware that a compliment is expected.

If a husband never tells his wife how pretty she looks, she shouldn't hesitate to repeat to him the compliments she receives from others. He's bound to notice her new hairdo if she tells him how much everyone likes it.

If a husband is too blind to notice that his wife has worked all day long getting the house in shining order and asks, "What have you been doing all day?" she ought to say, "Come and let me show you," instead of fuming inwardly.

If the husband of a working wife treats her job lightly, she ought to let him know that her boss thinks he couldn't get along without her.

If a husband talks as though he thinks running a house and

looking after children is a snap, his wife ought to use a little showmanship, taking off for a weekend and leaving him to cope with it all. By the end of the weekend she'll be appreciated.

If a husband isn't aware that his wife is an excellent manager, she ought to call attention to the clever ways in which she stretches one dollar into two.

Any wife can make a husband who takes her for granted sit up and take notice of her if she subtly—or not so subtly—calls attention to her admirable qualities. And that's exactly what most clever wives do.

would have let his partner play six diamonds and there would have been no defense against that contract.

In an effort to play six no-trump for a top score South went from six diamonds to six no-trump and was properly punished for his greed when East made a brilliant third-hand-low play to set him.

East went into a long huddle after his partner's spade opening. The automatic play would be to take his ace but he could count 12 sure tricks for declarer if he made that play. South had shown 13-15 points for his two no-trump call and East was looking at 26 points between his own hand and dummy. Therefore the only face card West could hold would be the jack of diamonds. That card would be worthless because South had shown at least three diamonds by his three diamond call. Hence, if East rose with the ace of spades declarer would have two spades, three hearts, five diamonds and two clubs for a total of 12.

Could South run off all 13 tricks if East ducked that first spade? He sure could. It all depended on who held the ten of clubs. Give South the ten of clubs and he could pick up East's queen and jack and make four club tricks.

Eventually East decided that he would get almost nothing if South made six no-trump but a top score if he beat the contract. Then he ducked the spade and got his top score.

FINDING THE WAY

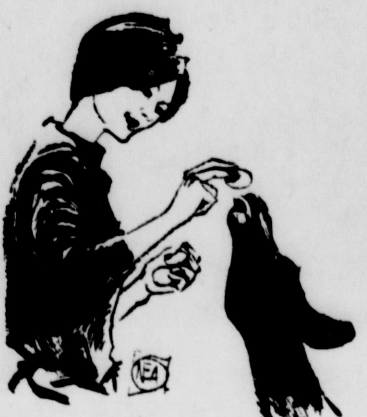

Friendly, but Few Friends

By RALPH W. LOWE, D.D.
Newspaper Enterprise Assn.

A young Japanese girl lived in our home for almost a year. Toward the end of that experience she was interviewed by a local television station. To the question, "Have you found Americans friendly?" she replied, "Friendly, yes, but you make few friends."

That surprising answer underscored our common need for meaningful brotherhood. So much has been written, so much has been said, and yet so much needs to be done, so normally one would hardly know that it exists.

Laws help. The erection of a legal structure enables our civilization to build an edifice in which all men can find the freedom to work, to live and

to give expression to their abilities.

Climate helps. The environment of friendliness is not the total answer but it does give the air and light which permits the plant to grow. It is always shocking to discover that so many who think of themselves as friendly have unwittingly tolerated or fostered an unfriendly atmosphere.

The lack of communication that exists among so many groups becomes the seedbed of violence and the ugliness that engulfs. We are easily shocked at the crude walls built by the Communists in Berlin; we tolerate too easily the walls which exist in our own cities. To overcome the hesitancy and timidity of so many there must be a favorable climate.

Personal initiative helps. The friendship between one human being and another, the person-to-person meetings between citizens and the actual understanding of what it is that makes us tick, aid in sparking the personal initiative.

Beyond all of this, it is necessary to simply ask what we are after. Perhaps we lose this sense of a goal because we lose the sense of wonder from our lives. Cities have a way of bleeding wonder from the soul. It is this sense of wonder which permits the adventure, helping the individual to see over the edge of hopelessness to the possibility of a new relationship.

"The brotherhood is not by blood certainly. But neither are men brothers by speech by saying so."

Men are brothers by life. Lived and are hurt for it."

Archibald MacLeish wrote that and we must live it. The pressures toward brotherhood are too often nudged by fears that pressure in these days should come from the new consideration of love and for the wonder of what might happen if we took the additional step. For we are so friendly, but so few of us are friends.

Q—Does a common law marriage entitle you to file a joint return?

A—If a couple is living together in a common law marriage recognized by the state in which it was entered into, a joint return may be filed.

Q—Is there any limit on what you can deduct per week for sick pay?

A—Yes, there is. After the 30-day waiting period the maximum is \$100 a week. Details on the sick-pay exclusion for the first 30 days are given in the 1040 instructions.

Q—Some years back I had some medical expenses that I was able to deduct on my return. Then I could only deduct that amount that exceeded a percentage of my income. Does this still apply?

A—Yes, this limitation still applies for those under 65 years of age. Only medical expenses exceeding 3 percent of adjusted gross income may be deducted when you itemize. Medicine and drug expense must exceed 1 percent of adjusted gross income before inclusion in medical expense for the 3 percent reduction.

Q—We recently bought a house and have rented it out. What expenses can we charge against the rental income we receive?

A—Repairs and maintenance costs, such as painting, which are not permanent improvements and do not add to the value of the property may be charged against rental income. Expenditures that tend to increase the value of the property should be capitalized. Other expenses, such as interest, taxes, insurance, depreciation and utilities, if you pay for them—are also deductible.

Q—How should I handle severance pay? Can I spread it out over several years?

A—Income is taxable in the year it is received. However, if the severance pay boosted your income by more than one-third what it normally is then the income averaging provisions of the law may help you. Ask for Schedule G of Form 1040 at any IRS office to get full details on this.

Offices Open For Sign-Up

Deadline For
Enrolling For
Medicare Near

WASHINGTON (AP) — The nation's 712 Social Security offices will be open evenings the first three days of next week and until midnight on March 31 to receive applications from people 65 and over for medical care coverage under medicare.

Robert M. Ball, commissioner of Social Security, announced Saturday that all district and branch offices and temporary service centers will be open until 9 p.m. Monday, Tuesday and Wednesday.

The midnight closing Thursday night will mark the deadline for people who are 65 and older by Jan. 1 to sign up.

Ball said some 2 million of the estimated 19.1 million persons who will be 65 or over by July 1 have not told Social Security of their decision regarding the voluntary doctor bill insurance program, which becomes effective July 1.

He noted that for those who turned 65 before Jan. 1, failure to sign up by midnight Thursday will mean they cannot enroll for another two years and also may mean higher premiums, unless Congress amends the law.

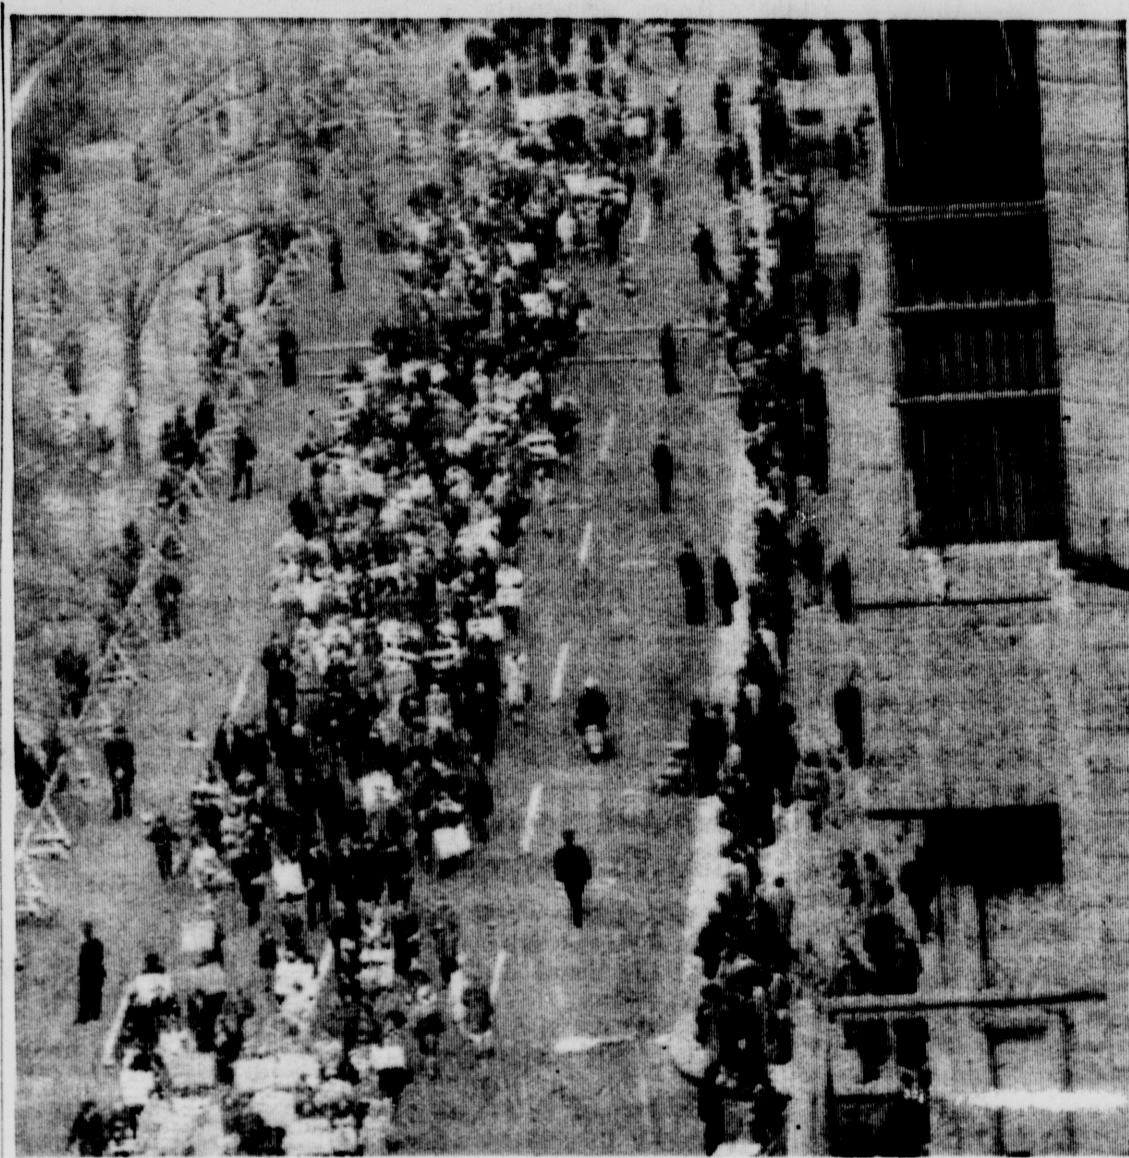

More than 16 million have applied for the medical care coverage. This will provide for payment of a major part of doctor bills for surgery and for home, office, clinic and hospital visits when the cost exceeds \$50 a year.

Those signing up will pay a premium of \$3 a month. The government will match this amount. The insurance will pay 80 per cent of the cost of doctor bills after they amount to more than \$50 a year.

As of this weekend, about a million persons over 65, or five per cent of the estimated total, had told Social Security they do not want the medical care coverage.

Ball said, however, that many who originally turned down the protection later changed their minds and enrolled.

He said the 16 million who have signed up represent about 85 per cent of the estimated eligibles, putting the initial enrollment well over the goal of a minimum 80 per cent sign-up.

NEW YORK — Thousands of anti-Viet Nam war demonstrators paraded past 86th Street on Fifth Avenue Saturday in a huge demonstration. More than 15,000 persons took part in the parade as hundreds of objectors were massed at the curbs with derogatory signs. (UPI)

Showpiece Of Weekend

New York City Parade To Protest War In Viet Nam

By THE ASSOCIATED PRESS
Thousands of people paraded down Fifth Avenue Saturday to protest the war in Viet Nam. It was the showpiece in a weekend of nationwide anti-war demonstrations.

Hecklers threw insults, and some eggs and tomatoes, at the New York marchers, whose sponsors claimed they were 20,000 strong.

At one point, spectators broke through a shoulder to shoulder line of policemen guarding the parade route and engaged in a brief fist fight with marchers who were carrying Viet Cong flags.

More police moved in and restored order in a few moments. Three men were hustled away in a patrol wagon.

A total of seven persons, all described as counterdemonstrators, were arrested on charges of disorderly conduct.

The marchers included veterans, clergy, students, children and old folks. There were few beatniks.

Two women parade marshals persuaded two youths from the League for Sexual Freedom not to display placards reading "Make love, not war," lest opponents seize the chance to make the marchers seem "a bunch of nuts."

In Washington, several hundred from rival groups demonstrated near the White House. Police arrested two men from the American Nazi party after they burned a Viet Cong flag taken from peace pickets.

At Cape Kennedy, Fla., about a dozen pickets marched at the main entrance to the space base — but it is remote from the populated area and there were few people at work on Saturday.

In Dayton, Ohio, a group of 60 started a five-block march to mail war protest letters to their congressmen, and were joined by 20 or more by the time they reached the post office.

New Billboard Is Up

A new billboard type sign has been erected by the Downtown Merchants Association on top of the building on the southeast corner of Fifth and Ohio giving a bright touch to downtown Sedalia.

The colorful sign reads: "Downtown Merchants Association welcomes you. Quality and convenience."

About 100 persons marched in downtown Buffalo without incident.

In San Francisco, 3,000 marched up Market Street to a Civic Center Viet Nam protest rally.

CMSC Coed Drowns In Rock Quarry

A coed of Central Missouri State College, Warrensburg, was drowned Friday night after slipping from a ledge and falling into an abandoned rock quarry filled with water, two miles north of Warrensburg. She was Judith Kay Conrad, 21, Portage, Ind.

According to the Johnson County Sheriff Harlan Temple, the young woman was on an outing with friends at the rock quarry and fell from the eight-foot ledge after moving from a campfire near the ledge.

The Pettis County Rescue Squad, under direction of Deputy Sheriff Jack Coutts, received a call to aid in the search for the body at 9:30 p. m. Friday and sent seven members to the site. Three divers entered the lake, Ed Brummet, John Culver and Len Eberting. The body was discovered by Brummet about 12:15 a. m. Saturday. The water into which Miss Conrad fell was from ten to twelve feet deep, according to Sheriff Temple.

Miss Conrad was the daughter of Mr. and Mrs. H. J. Conrad, Portage, Ind., who survive. A sister, Pamela Sue, also survives. She was a member of the Presbyterian Church of East Gary, Ind., and a member of the Alpha Sigma Alpha Sorority at CMSC.

The body was taken to the Sweeney-Phillips Funeral Home in Warrensburg early Saturday and was sent to Chicago late Saturday morning.

Funeral services will be held at the Olson-Reiser Funeral Home in Portage.

150 Persons In March In Downtown KC Area

KANSAS CITY (AP) — A crowd of about 150 persons, most of them students from area colleges, marched in the downtown area Saturday afternoon in a demonstration for peace in Viet Nam.

They marched around the new Federal Office Building for about an hour and then went to the plaza above the Auditorium Plaza garage.

Here they were addressed by Dr. Ben Fuson, a professor at Kansas Wesleyan University of Salina, Kan. He said the "moral rot" in Saigon is so bad that a prostitute can earn more in one night from American soldiers than a Viet Nam peasant can earn in months.

In the group were students from the University of Kansas and the University of Missouri in Kansas City.

Youths In Demonstration; Marines Set Up Beachhead

Pressures Threaten To Complicate Cong Fight

SAIGON, South Viet Nam (AP) — Buddhist youths staged an antigovernment street demonstration in Saigon Saturday night while U.S. Marines consolidated a beachhead, newly won in their southernmost landing of the war, to protect river traffic to the capital.

Mounting against Premier Nguyen Cao Ky's military regime were political pressures which threatened — as others have done at intervals since the downfall of President Ngo Dinh Diem in 1963 — to complicate the fight against the Viet Cong.

Leaping into that fight were about 1,200 American Leathernecks of the 1st Battalion, 5th Marine Regiment, specially trained in Hawaii for a special job in Viet Nam.

They stormed ashore in assault boats and helicopters in a driving rain at the mouth of the Saigon River, 35 miles southeast of Saigon. With naval guns firing in support, there was no initial Viet Cong resistance. The main mission is to help shield from Communist harassment a shipping lane by which vital supplies are moved inland from the South China Sea.

Operations elsewhere cost the United States three planes. Of four crewmen in these crashes, three were killed and one is listed as missing.

One of the planes, an A4 Skyhawk from the nuclear-powered carrier Enterprise, crashed in one of 38 attacks against North Viet Nam's transport and communication lines Friday. It went down about 60 miles north of the highway ferry landing. The others fell during attacks on Viet Cong centers in the south.

Two hundred or more young Vietnamese marched from a rally of 10,000 at the Buddhist Institute of Saigon's central market in the first such street manifestation of opposition here to Ky's government since he assumed power last June.

They called, as their fellows in Hue and Da Nang have previously done, for a speedy return to civilian rule.

Police broke up a preliminary attempt at a march by exploding two smoke grenades, but afterward kept hands off. They let the demonstrators pass unmolested to harangue passers-by under banners that said "Save the national sovereignty" and "Bring democracy and destroy colonialism."

The demonstration attracted about 3,000 persons, including many children. The crowd dispersed shortly before midnight.

In all, it never approached the violence of some demonstrations that Buddhists and students have launched here in the past. The Buddhist Institute rally heard a denunciation from Thich Thien Minh, head of Buddhist youth affairs, of South Viet Nam's current government, social and economic situation.

He urged the youths at the rally, however, to take no action at least until after a scheduled meeting of Buddhist leaders Sunday.

Mrs. Hearn To Speak At District Meet

Mrs. Warren E. Hearn, Missouri's First Lady, will be the principal speaker at the annual spring meeting and luncheon of the Fourth District Missouri Federation of Women's Democratic Clubs, to be held April 2 at the Bothwell Hotel.

Mrs. Hearn is the former Betty Cooper, daughter of Mrs. A. B. Cooper and the late Rev. Cooper. She was born July 24, 1927. Valedictorian of her Charleston, Mo., high school graduating class, she attended Southeast Missouri State College, Cape Girardeau, before receiving her B. S. degree in public school music from the University of Missouri in June, 1952 — the same day her husband added an A. B. degree to his B. S. degree from West Point and two months before he received an LL.B. degree from the University of Missouri School of Law.

Six Thai Bandits Executed By Squad

BANGKOK, Thailand (AP) — Six Thai bandits were executed by a firing squad Thursday in a troop-ringed temple courtyard, only 150 yards away from a market where they killed five persons in a raid last December.

Officials said Tiger Khao had threatened to retaliate against all officials involved in the execution.

Compare To Airplane Spin

Astronauts Tell Of Wild Journey

MANNED SPACE CENTER, Houston, Tex. (AP) — Calmly, the two astronauts who rode and tamed wild Gemini 8 in space said Saturday that even at the height of their tumbling and spinning they were a long way from losing consciousness.

To Neil A. Armstrong and David R. Scott, the fierce ride in orbit compared with a sensation they had felt before — as pilots in a spinning airplane.

The Gemini 8 space twins, their maiden orbital voyage cut short by a short circuit in the spacecraft, told a news conference the story of their historic, but brief mission.

For a time after trouble developed while Gemini 8 and an Agena rocket were still docked, Armstrong said, he felt he was bringing the rigid combination under control.

"The problem again uncovered itself and the rates (of tumble) began to increase to a point where we felt the structural integrity of the combination were in jeopardy," he said.

It was at this point that they realized they were in serious trouble. While not elaborating, Armstrong was referring to the fact the two vehicles were locked nose to nose, and could snap apart or disintegrate.

Up to that time the flight of Gemini 8 had been flawless.

The astronaut team had accomplished man's first linkup in space with another orbiting satellite, after tracking and catching an Agena rocket March 16.

But their trouble-free trip in space didn't last long. The short circuit flashed a signal to a small maneuvering jet on the rear of the spacecraft to fire, and it did, uncontrollably.

While still docked, Gemini 8 and the Agena, a rigid combination, began to roll and spin, until Armstrong, the civilian command pilot, had to unlatch from the Agena and use his vital re-

Suspension Bridge Opened To Traffic

WARSAW, Mo. (AP) — The suspension bridge over Grand River on Missouri 7 about four miles west of Warsaw was reopened for weekend traffic.

A big tractor-trailer truck hauling 40,000 pounds of potatoes damaged some of the bridge's underpinnings Friday and it was closed.

Gus Kramer, area maintenance supervisor, for the Missouri Highway Department at Clinton, announced the re-opening and said the bridge probably will be closed Monday, Tuesday and Wednesday for repairs.

The bridge carries heavy weekend traffic between the Kansas City and the upper reaches of the Lake of the Ozarks.

EDITOR'S NOTE: This is another in a series of personal comments by residents on the Pettis-Benton County Junior College District proposal to be voted on April 5.

Personal Views On JuCo Proposal

George E. Dugan, businessman, 116 East Fifth — "Over 800 Junior Colleges are now serving 1,300,000 students in the United States. Industry and businesses can use Junior College graduates. Vote 'yes' on April 5 for a greater opportunity for our youth!"

D. I. Sevier, insurance salesman, LaMonte — "Being on the board of education at LaMonte, I can see many of the high school students in this area moving away to the metropolitan areas. They either go away to college or they find jobs elsewhere. I believe a Junior College in our area would give many of these particular young people the privilege to remain here, both while attending college and in job placements!"

Mrs. Opal Williams, field secretary, 1313 South Moniteau — "Although I am a widow and my children grown, I still feel we owe to other families to help provide advanced education for their sons and daughters."

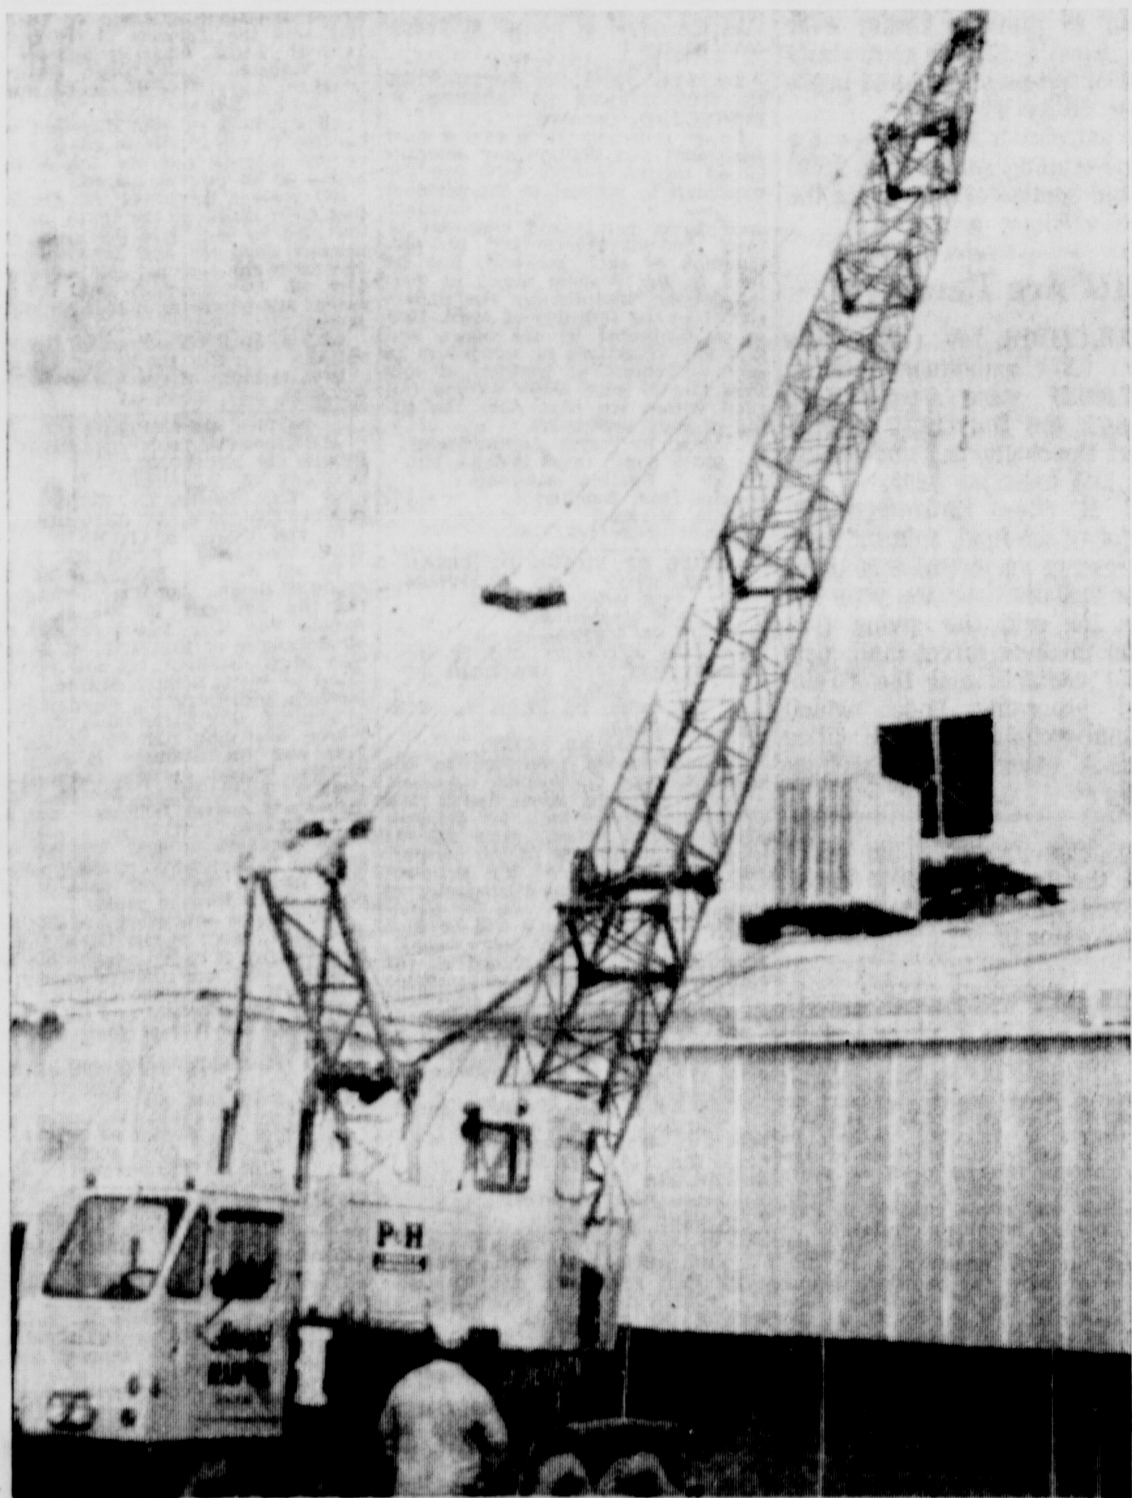

Lee Deason, zone manager for investment company, 2525 Wing — "For it? Sure I am! Being in the investment business, I would say one of the best investments we can make in our city and in this area is to establish a Junior College. Who could have said it better than Benjamin Franklin? 'An investment in knowledge always pays the best interest.' We, as adults, should not let our children down, April 5!"

Police obtained a partial description of the hit-and-run vehicle and are investigating.

One person complained of a leg injury as a result of an accident about 5 p.m. Thursday, at the intersection of U. S. Highway 65 and Grand. Damage resulted to both vehicles involved.

Mrs. Coleene Jo Mittlehauser, 28, Route 4, driver of a 1959 Chevrolet, complained of an injury to her left leg, but did not go to the hospital.

Mrs. Mittlehauser was driving north on Highway 65 and was being followed by a 1957 GMC truck, driven by Vernie Vestal Church, 47, Route 4.

According to Trooper Southwick, Mrs. Mittlehauser was making a left turn on Grand Avenue road, and the left rear fender of her car was struck by the front of the truck.

The Chevrolet was spun around and traveled 60 feet to the left of the highway and came to stop along the west shoulder of Grand in a ditch. Mrs. Mittlehauser was able to drive her car away from the scene while Parks Citgo wrecker towed the truck away.

Church was given a Highway Patrol summons to appear before Magistrate Frank T. Armstrong, April 28.

Tim Mosier, 1107 West Seventh, reported the theft of a black reversible jacket to police Thursday. The jacket was valued at \$16.

Sheriff Report

Pettis County Sheriff Emmett Fairfax reported Thursday that about a five-mile stretch of county road southeast of Beaman in the Salem Church vicinity had been littered with empty five quart oil cans and a 30 gallon oil container sometime Wednesday. A yellow truck was observed by residents in the area and an investigation is being carried out.

Area Fires

Pettis County firemen made two runs Thursday afternoon with the second call being received via radio while the first was being fought.

The first alarm came at 3:15 p.m. from the Leonard May farm, Route 2, where grass and timber were burning. Firemen used a booster line and pump bucket to douse the blaze. Slight damage resulted to a pile of lumber.

While at this blaze, the truck was summoned to near Bryson where a large grass fire was in progress on several farms between there and Windsor near the Pettis-Henry County line.

conference in which he blamed the strike on "delaying tactics" and "refusal to negotiate" by the carriers.

He said the objective of the walkout was to get the railroads to bargain on a program to train firemen for engineer and other jobs.

"The training program we're asking for will go a long way to settle the issues," Gilbert said.

The issues revolve around arbitration awards under which more than 17,000 firemen's jobs were eliminated since May, 1964. The dispute has been going on for more than seven years.

The arbitration ruling which enabled the carriers to cut off firemen expired last midnight, minutes before the strike began.

The railroads want to continue eliminating firemen's jobs as unnecessary and financially burdensome. The union had announced its intention to seek restoration of jobs lost.

Wheat and Soybeans
Decline in Trading

CHICAGO (AP)—Wheat and old crop soybeans futures declined on the Board of Trade Thursday.

The losses were in part a reaction to Wednesday's sharp runup that followed President Johnson's request to Congress for authority to ship an additional 3.5 million tons of feed grains to India.

Some traders were disappointed that the President's food program for India did not provide for exports of larger amounts of soybean oil. The President set a figure of 75,000 tons of U.S. vegetable oils.

Traders also weighed the possibility the grain exports might stretch out through the entire calendar year.

Liquidation in May wheat expanded materially and the contract lost up to 1½ cents a bushel at the close.

Wheat closed ¾ to 1½ cents a bushel lower, \$1.56½-57; corn ¼ higher to ¼ lower, May \$1.24½-25; oats ¼ to ¼ lower, May 68½ cents; rye 1¼ to 1¼ lower, May \$1.24 and soybeans ¾ higher to 2½ lower, May \$2.84½-85.

Civilian Light Plane
Crashes on Highway

FT. LEONARD WOOD, Mo. (AP)—A civilian pilot crashed a single-engine plane on the busy highway leading into this Army post from the main gate Thursday night.

The plane narrowly missed several automobiles, witnesses said. The craft landed on its belly, skidded 100 feet and burst into flames after snapping some power and telephone wires.

The patrol said a similar plane made several low passes about 45 minutes earlier over the Devil's Elbow community east of the main gate and broke some utility wires.

A patrolman said he saw the plane trailing some wires from its tail section after leaving the Devil's Elbow area.

Gifts Are Received

COLUMBIA, Mo. (AP)—Gifts from 6,274 individuals totaling \$657,620.57 were received through the University of Missouri Development Fund during the 1965 calendar year.

G. H. (Bus) Entsminger, director of the fund, said the total represents an increase of more than \$100,000 over the year before. He said the giving program involves direct mail, personal contacts and the "Telefund program" under which alumni volunteers in 55 cities contact other alumni seeking gifts.

ment also answered the call and the two companies extinguished the blaze with only slight damage resulting.
